Project Information

Project Name or Project/ Program Title FY 2009 Recovery Act Justice Assistance Grant Program

Quarterly Activities/ Project Description Funds have been used to support programs that reduce crime and its affect on communities, including law enforcement, courts, victim services, juvenile services and substance abuse treatment. As of this reporting period, 438 subrecipients have submitted their final request for payment. Funds were primarily used for overtime for law enforcement officers along and near the Texas-Mexico border and for law enforcement equipment for those agencies. Equipment purchases included standard patrol vehicles, mobile data terminals, computers, radios, in-car video cameras, night vision items and thermal imagers. A solicitation was opened during the quarter for law enforcement agencies in rural counties with a population of less than 5,000 to purchase equipment. A total of 39 applications were received and staff will begin reviewing, prioritizing and awarding grants to these applicants during the next reporting period. One new application for law enforcement equipment was received from a state agency during the reporting period. The application has been processed and is being prepared for award. The state administering agency hired two additional financial monitors to conduct reviews of grants awarded under the American Recovery and Reinvestment Act.

Project Status Completed 50% or more
