

Conflict of Interest Resolution Policy

Amendment Effective Date: May 3, 2011

In the case of a perceived conflict of interest between an applicant and any Regional Center for Innovation and Commercialization (RCIC), the applicant may choose to reapply to any other RCIC during any open round of application by the RCIC. The applicant should make, but is not required to make, TETF staff and their chosen RCIC aware of this perceived conflict.

If an applicant and the RCIC feel that they have been unable to remedy a perceived conflict of interest at the RCIC level, the applicant and RCIC may make the Texas Emerging Technology Fund Advisory Committee aware of this conflict through the TETF Office of the Governor staff. As per legislation, the TETF Advisory Committee may choose to review such an application at the discretion of the TETF Advisory Committee.

Conflicts of interest raised at the TETF Advisory Committee level will be dealt with in accordance with the TETF Advisory Committee Ethics Policy.
