**Greg Abbott
Governor of Texas**

GOVERNOR GREG ABBOTT

November 20, 2015

Honorable Greg Abbott, Governor
Honorable Glenn Hegar, Texas Comptroller
Ursula Parks, Director, Legislative Budget Board
John Keel, CPA, State Auditor

Dear Governor Abbott, Comptroller Hegar, Ms. Parks, and Mr. Keel:

The Office of the Governor is pleased to submit its Annual Financial Report for the year ending August 31, 2015, in compliance with Texas Government Code Annotated, Section 2101.011, and in accordance with requirements established by the Comptroller of Public Accounts.

Due to the statewide requirements embedded in Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report will be considered for audit by the State Auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report (CAFR)*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

If you have any questions, please contact Cheryl Degan, Chief Financial Officer at (512) 936-0157.

Sincerely,

A handwritten signature in black ink that reads "DeHodge" with a stylized flourish at the end.

NOTE 1: Summary of Significant Accounting Policies

Entity

The Office of the Governor (Office) is an agency of the State of Texas. Its financial records are shown under two agencies, Agency 301 Core Operations and Agency 300 Trusteed Programs, and comply with state statutes and regulations including the Texas Comptroller of Public Accounts' *Reporting Requirements for Annual Financial Reports of State Agencies and Universities*.

The Office is provided for in the Constitution of the State of Texas. Additional functions are prescribed by various legislative acts and executive orders.

Due to the statewide requirements embedded in Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, the Comptroller of Public Accounts does not require the accompanying annual financial report to comply with all the requirements in this statement. The financial report is considered for audit by the state auditor as part of the audit of the State of Texas *Comprehensive Annual Financial Report*; therefore, an opinion has not been expressed on the financial statements and related information contained in this report.

The Office (Agency 300) includes within this report all components as determined by an analysis of their relationship to the Office as listed below.

Blended Component Units

The Office has one blended component unit. Information on component units can be found in Note 19.

Discretely Presented Component Units

The Office has seven discretely presented component units. Information on component units can be found in Note 19.

Fund Structure

The accompanying financial statements are presented on the basis of funds, each of which is considered a separate accounting entity.

Governmental Fund Types and Government-Wide Adjustment Fund Types

General Revenue Funds

General revenue funds are the principal operating funds used to account for the State's general activities. General revenue funds are used to account for all financial resources of the State except those required to be accounted for in another fund.

General Revenue Fund (Fund 0001) is used to account for all of Agency 301 Core Operations' general activities and much of the Agency 300's general activities except those required to be accounted for in another fund.

Operators and Chauffeurs License Fund (Fund 0099) is controlled by Department of Public Safety. The Office is authorized to spend money from Fund 0099 but does not report cash balances in this report because the controlling agency reports the cash balance.

Governor's Office Federal Projects Fund (Fund 0224) was established to account for federal receipts and disbursements.

Criminal Justice Planning Fund (Fund 0421) was established to receive 12.5537% of court costs collected from defendants convicted under certain sections of the Penal Code. The fund also accounts for federal receipts and disbursements.

Economic Stabilization Fund (Fund 0599) is controlled by the Texas Comptroller's Office. The Office of the Governor is authorized to spend money from Fund 0599 when it is appropriated by the legislature but does not report a cash balances in this report because the controlling agency is required to report all cash balances.

Summary of Significant Accounting Policies (continued)

License Plate Trust Fund (Fund 0802) is controlled by the Texas Department of Motor Vehicles. The Office of the Governor is authorized to spend money from Fund 0802 originating from revenue receipts from "Texas, It's Like a Whole Other Country" specialty license plates, specialty license plates that include the words "Texas Music", and specialty license plates that include the words "Native Texan". Collections in the account from "Texas, It's Like a Whole Other Country" license plates are to be used only to fund tourism activities. Collections in the account from specialty license plates that include the words "Texas Music" may be used by the Texas Music office within the Office of the Governor to make grants to benefit music-related educational and community programs sponsored by nonprofit organizations in this state. Collections in the account from specialty license plates that include the words "Native Texan" are used by the Division of Economic Development and Tourism within the Office of the Governor to make grants to the Daughters of the Republic of Texas to preserve Texas historic sites or fund educational programs teaching Texas history. The Office of the Governor does not report the shared cash balances in this report.

Hotel Occupancy Tax for Economic Development Fund (Fund 5003) was established to receive ½ of 1% of revenue collections of hotel occupancy tax. These funds are used primarily for advertising and other marketing activities that promote Texas as a premier travel destination by the Division of Economic Development and Tourism within the Office of the Governor.

Crime Stoppers Assistance Fund (Fund 5012) was established to receive 0.2581% of court costs from defendants convicted under certain sections of the Penal Code. Ten percent of the amounts deposited must be used for operation of toll-free telephone services under Section 414.012, Government Code and the remainder must be distributed to local crime stoppers organizations.

Texas Enterprise Fund (Fund 5107) consists of appropriations, interest earned, gifts, grants and donations. Collections may be used only for economic development, infrastructure development, community development, job training programs and business.

Texas Military Value Revolving Loan Fund (Fund 5114) was established for deposit of loan payments made by a political subdivision, gifts, grants and proceeds from the sale of general obligation bonds as authorized by Section 40-n, Article III, Texas Constitution. These proceeds are used to fund loans to political subdivisions and defense communities to prepare a comprehensive defense installation and community strategic impact plans.

Emerging Technology Fund (Fund 5124) consists of appropriations, benefits realized from a project undertaken with money from the fund, gifts, grants, donations and interest earned. Proceeds are used for incentives for collaboration between certain entities, for matching research awards and for acquisition of research superiority.

BP Oil Spill Texas Response Grant (Fund 5149) consists of a block grant from British Petroleum to the state of Texas to pay for costs related to or resulting from the oil spill. These funds may also be used by various state agencies as directed by the Governor's Office for costs related to or resulting from the oil spill.

Special Revenue Funds

Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Small Business Incubator Fund (Fund 0588) was established as a revolving fund to record bond proceeds, application fees, loan repayments, guarantee fees, royalties, dividend income, appropriations, federal grants and any other sources authorized by Section 71, Article XVI, Texas Constitution. Proceeds may be used to provide financing to foster and stimulate development of small business in this state and for fund administration.

Texas Product Development Fund (Fund 0589) was established as a revolving fund to record bond proceeds, application fees, loan repayments, guarantee fees, royalties, dividend income, appropriations, federal grants and any other sources authorized by Section 71, Article XVI, Texas Constitution. Proceeds may be used to provide financing to aid in the development and production of new or improved products in this state and to provide funding for administration.

Debt Service Funds

Debt Service funds are used to account for the accumulation of financial resources that are restricted, committed or assigned to expenditures for general long-term debt principal and interest.

Summary of Significant Accounting Policies (continued)

Small Business Incubator Fund (Fund 0588) was established as a revolving fund to record loan repayments in order to pay bond debt service.

Texas Product Development Fund (Fund 0589) was established as a revolving fund to record loan repayments in order to pay bond debt service.

Texas Military Value Revolving Loan Funds (Funds 7022 and 7027) were established to receive deposits of loan repayments in order to pay bond debt service.

Capital Assets Adjustment Fund Type

The capital asset adjustment fund (Fund 9998) is used to convert governmental fund types' capital assets from modified accrual to full accrual.

Long-Term Liabilities Adjustment Fund Type

The long-term liabilities adjustment fund (Fund 9997) is used to convert governmental fund types' debt from modified accrual to full accrual.

Proprietary Fund Types

Enterprise Funds

Enterprise funds are used to account for any activity for which a fee is charged to external users for goods or services. Activities must be reported as enterprise funds if any one of the following criteria is met:

1. The activity is financed with debt that is secured solely by a pledge of the net revenue from fees and charges of the activity.
2. Laws or regulations require that the activity's costs of providing services including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenue.
3. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs.

Economic Development Bank Fund (Fund 5106) consists of appropriations, fees and investment earnings under Government Code, Chapter 481, Subchapter BB, fees under Government Code, Chapter 489, and interest and other amounts received by the state under Government Code, Chapter 489. Proceeds are used only to carry out the purposes of Government Code, Chapter 489.

Fiduciary Fund Types

Fiduciary funds account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds.

Agency Funds

Agency funds are used to account for assets the government holds on behalf of others in a purely custodial capacity. Agency funds involve only the receipt, temporary investment and remittance of fiduciary resources to individuals, private organizations or other governments.

Private-Purpose Trust Funds

Private-purpose trust funds are used to report trust arrangements, other than pension and other employee benefit trust funds and external investment trust funds, under which the principal and income benefits individuals, private organizations or other governments.

Spaceport Trust Fund (Fund 0806) consists of grants and donations and any other source designated by the legislature. These proceeds are to be used for the development of spaceport infrastructure.

Component Units

The financial data of the individual component units are available from the component units' separately issued financial statements. Additional information about component units is disclosed in Note 19.

Basis of Accounting

The basis of accounting determines when revenue and expenditures or expenses are recognized in the accounts reported in the financial statements. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Summary of Significant Accounting Policies (continued)

Governmental fund types that build the fund financial statements are accounted for using the modified accrual basis of accounting. Under the modified accrual basis, revenue is recognized in the period in which it becomes both measurable and available to finance operations of the fiscal year or liquidate liabilities existing at fiscal year-end. The State of Texas considers receivables collected within sixty days after year-end to be available and recognizes them as revenue of the current year for fund financial statements prepared on the modified accrual basis. Expenditures and other uses of financial resources are recognized when the related liability is incurred.

Governmental adjustment fund types that will build the government-wide financial statements are accounted for using the full accrual basis of accounting. The following activities are recognized in these fund types: capital assets, accumulated depreciation, unpaid employee compensable leave, unmatured debt service on general long-term liabilities, long-term capital leases, long-term claims and judgments, and full accrual revenue and expenses.

Proprietary funds are accounted for on the full accrual basis of accounting. Under the full accrual basis of accounting, revenue is recognized when earned and expenses are recognized at the time liabilities are incurred. Proprietary funds distinguish operating from non-operating items. Operating revenue and expenses result from providing services or producing and delivering goods in connection with the proprietary funds' principal ongoing operations. Operating expenses for proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets.

Private-purpose trust funds are also accounted for on the full accrual basis of accounting. Private-purpose trust funds and other fiduciary activities are reported in separate statements of fiduciary net position and changes in fiduciary net position.

Budget and Budgetary Accounting

The budget is prepared biennially and represents appropriations authorized by the Legislature and approved by the Governor (the General Appropriations Act). Unencumbered appropriations are generally subject to lapse 60 days after the end of the fiscal year for which they were appropriated.

Assets, Liabilities, and Fund Balance / Net Position

Assets

Cash and Cash Equivalents

Short-term highly liquid investments with an original maturity of three months or less are considered cash equivalents.

Restricted Assets

Restricted assets include monies or other resources restricted by legal or contractual requirements. These assets include proceeds of enterprise fund general obligation and revenue bonds and revenues set aside for statutory or contractual requirements.

Inventories and Prepaid Items

Inventories include both merchandise inventories on hand for sale and consumable inventories. Inventories are valued at cost, generally using the last-in, first-out method. The consumption method of accounting is used to account for inventories and prepaid items that appear in the governmental and proprietary fund types. The cost of these items is expensed when the items are consumed.

Loans, Contracts and Other Receivables

Loans receivable reflects the outstanding amount of loans to outside entities which have been entered into by the Office as loans, convertible loans or as grant advances. Convertible loans held within the Texas Emerging Technology Fund (TEFT) are acquired as consideration for awards made to private companies primarily for the purpose of economic development within Texas. Therefore, any impairment of these loans is recorded as grant expense. Per GASB 33 requirements, loans receivable also reflects grant payments given in advance of requirements being met. The grant advances will be reclassified as grant expenditures as requirements of the grant are met or when it has been determined that the grant requirements will not be met. Losses related to troubled debt restructuring are estimated as set out in GASB 62 and reflected in the period of restructuring. Loan origination and non-refundable application fees and direct loan origination costs are not recognized as an adjustment to yield nor as part of the loan balances as these adjustments are immaterial. Grant termination agreements requiring a return of funds are recorded as a receivable.

Summary of Significant Accounting Policies (continued)

Equity Holdings for Economic Development

Equity holdings held within the Texas Emerging Technology Fund (TEFT) are acquired as consideration for awards made to private companies primarily for the purpose of economic development within Texas. Therefore, these holdings are recorded at cost less impairment. Losses related to impairment are recorded as grant expense. The Emerging Technology Fund's annual report to the legislature will include not only the cost basis as defined by GASB but also the fair value of these holdings.

Capital Assets

Assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year are capitalized. These assets are capitalized at cost or, if not purchased, at fair value as of the date of acquisition. Purchases of assets with governmental funds are reported as expenditures. Depreciation is reported on all "exhaustible" assets. Assets are depreciated over the estimated useful life of the asset using the straight-line method.

Liabilities

Accounts Payable

Accounts payable represents the liability for the value of assets or services received at the balance sheet date for which payment is pending.

Unearned Revenue

Unearned revenue is revenue received but not yet earned at the end of the fiscal year.

Employees' Compensable Leave Balances

Employees' compensable leave balances represents the liability that occurs due to relevant events such as resignations, retirements and uses of leave balances by covered employees. Liabilities are reported separately as either current or non-current in the statement of net assets. These obligations are normally paid from the same funding source from which each employee's salary or wage compensation was paid.

Bonds Payable – General Obligation Bonds

The unmatured principal of general obligation bonds is accounted for in the long-term liabilities adjustment column for governmental activities and in proprietary funds for business-type activities. These payables are reported as current long-term liabilities for amounts due within one year and noncurrent long-term liabilities for amounts due thereafter in the statement of net assets. The bonds are reported at par, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities.

For governmental activities, bond proceeds are accounted for when received as an "other financing source" in the governmental fund receiving the proceeds. Payment of principal and interest is an expenditure recorded in the debt service fund. All bond transactions and balances for business-type activities are reported in proprietary funds.

Bonds Payable – Revenue Bonds

Revenue bonds are accounted for in proprietary funds for business-type activities and in the long-term liabilities adjustment column for governmental activities. These payables are reported as current long-term liabilities for amounts due within one year and noncurrent long-term liabilities for amounts due thereafter in the statement of net assets. The bonds are reported at par, net of unamortized premiums, discounts, issuance costs and gains/(losses) on bond refunding activities.

Fund Balance / Net Position

The difference between fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources is "net position" on the government-wide, proprietary and fiduciary fund statements, and the "fund balance" is the difference between fund assets plus deferred outflows of resources and liabilities plus deferred inflows of resources on the governmental fund statements.

Summary of Significant Accounting Policies (continued)

Fund Balance Components

Fund balances for governmental funds are classified as nonspendable, restricted, committed, assigned or unassigned in the fund financial statements.

- 1) Nonspendable fund balance includes amounts not available to be spent because they are either (1) not in spendable form or (2) legally or contractually required to be maintained intact.
- 2) Restricted fund balance includes those resources that have constraints placed on their use through external parties or by law through constitutional provisions. Fund balances of the following funds not classified as nonspendable have been classified as restricted:
 - o Federal fund balances which are accounted for in the Governor's Office Federal Projects Fund 0224 and the Criminal Justice Planning Fund 0421 have been classified as restricted.
 - o Fund balances of the Small Business Incubator Fund 0588, the Texas Product Development Fund 0589 and the Texas Military Revolving Loan Fund 5114 have been classified as restricted since these funds were established in the Texas Constitution. The Small Business Incubator Fund and the Texas Product Development Fund were established in Article XVI and the Texas Military Revolving Loan Fund was established in Article III.
 - o In addition, fund balances of the debt service funds of Texas Military Value Revolving Loan Funds 7022 and 7027 and a portion of the fund balance of the enterprise fund of Economic Development Bank Fund 5106 have been classified as restricted due to the restrictions of the debt covenants.
- 3) Committed fund balance can be used only for specific purposes pursuant to constraints imposed by a formal action of the Texas Legislature, the state's highest level of decision making authority. Fund balances of the general revenue dedicated funds and the blended component units which are not classified as nonspendable or restricted have been classified as committed.
- 4) Assigned fund balance includes amounts constrained by the state's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (1) the Texas Legislature or (2) a body (for example, a budget or finance committee) or official to which the governing body has delegated the authority to assign amounts to be used for specific purposes.
- 5) Unassigned fund balance is the residual classification for the general fund. This classification represents fund balance that was not assigned to other funds and was not restricted, committed or assigned to specific purposes within the general fund.

Invested In Capital Assets, Net Of Related Debt

Invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation and reduced by outstanding balances for bond, notes and other debt that are attributed to the acquisition, construction or improvement of those assets.

Restricted Net Position

Restricted net position results when constraints placed on net resources are either externally imposed by creditors, grantors, contributors and the like or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Position

Unrestricted net position consists of net resources that do not meet the definition of the two preceding categories. Unrestricted net position often has constraints on resources that are imposed by management but can be removed or modified.

Fiduciary Net Position Held in Trust

Fiduciary net position held in trust consists of net resources held in a trustee or agency capacity for others.

Interfund Activities and Balances

The Office has the following type of transactions between funds and/or agencies:

- 1) Transfers: Legally required transfers that are reported when incurred as "transfers in" by the recipient fund and as "transfers out" by the disbursing fund.

Summary of Significant Accounting Policies (continued)

- 2) Reimbursements: Reimbursements are repayments from funds responsible for expenditures or expenses to funds that made the actual payment. Reimbursements of expenditures made by one fund for another are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund. Reimbursements are not displayed in the financial statements.
- 3) Interfund receivables and payables: Interfund loans are reported as interfund receivables and payables. If repayment is due during the current year or soon thereafter, the balance is classified as "current." Balances for repayment due in two (or more) years are classified as "noncurrent."

NOTE 2: Capital Assets

Revenue received from the sale of surplus property has been transferred to unappropriated general revenue in accordance with HB 7, Section 20, 80th Legislature, R.S.

U.S. Government Obligations money market funds are rated either AAAm by Standard & Poor’s or Aaa-mf by Moody’s.

NOTE 4: Short-Term Debt

The Office has a standby letter of credit for the Product Development Program General Obligation Variable Rate Demand Bonds, Series 2005A and the Small Business Incubator General Obligation Variable Rate Demand Bonds, Series 2005B as described in Note 6. No activity or draws have been made during this fiscal year on this letter of credit.

The Office has a direct pay letter of credit for \$25,000,000, which was increased from \$20,000,000 on October 1, 2014, with JP Morgan Chase Bank to facilitate the sale of commercial paper that provides financing for the Texas Leverage Fund Program. Each time the commercial paper matures and is reissued the letter of credit is drawn down and repaid usually on the same day while the paying agent is processing the payments to holders of the maturing commercial paper and the receipts related to the sale of the newly issued commercial paper. The Office was paid in full as of August 31, 2015.

NOTE 5: Long-Term Liabilities

Notes and Loans Payable

Notes payable consist of commercial paper which is paid and re-issued every 30 to 90 days. The commercial paper program is authorized by Section 52-a of Article III of the Constitution of the State of Texas and Chapter 481 of the Texas Government Code to issue revenue bonds or notes for the purpose of providing money to fund the loan program. The program is secured by a direct pay letter of credit from JP Morgan Chase Bank which may be authorized for an amount up to \$25 million. At fiscal year end, the letter of credit was authorized for \$25 million and that same amount of commercial paper was issued.

This commercial paper is used to finance the Texas Leverage Fund program's lending activities which may consist of 5-, 10-, or 15-year loans. Therefore, the commercial paper is considered long-term debt and reported as a noncurrent liability on the financial statements and in the table showing changes in long-term liabilities for business activities above. While the full length of the Texas Leverage Fund program is not reasonably estimable, since almost all the loans extended by the Texas Leverage Fund program have a 15-year maturity, the commercial paper is shown in the table below as maturing in 2030. The interest rate of the commercial paper is variable and determined by the market rate at the time the commercial paper trade is made. The rate of 0.25%, effective on August 31, 2015, was used to calculate the estimated interest amounts shown in the table below.

The debt service requirements for Notes Payable in the Governmental, Business-Type, and Component Unit Activities are estimated to be as follows:

Long-Term Liabilities (continued)

Notes Payable Debt Service Requirements

Employees' Compensable Leave

A state employee is entitled to be paid for all unused vacation time accrued in the event of the employee's resignation, dismissal, or separation from State employment, provided the employee has had a continuous employment with the State for six months. Expenditures for accumulated annual leave balances are recognized in the period paid or taken in governmental fund types. For these fund types, the liability for unpaid benefits is recorded in the Statement of Net Assets. An expense and liability for business-type activities are recorded in the proprietary funds as the benefits accrue to employees. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

NOTE 6: Bonded Indebtedness**Bonds Payable**

Detailed supplemental bond information is disclosed in:

- Schedule 2A – Miscellaneous Bond Information
- Schedule 2B – Changes in Bond Indebtedness
- Schedule 2C – Debt Service Requirements
- Schedule 2D – Analysis of Funds Available for Debt Service
- Schedule 2E – Defeased Bonds Outstanding
- Schedule 2F – Early Extinguishment and Refunding

General information related to bonds is summarized below:

General Obligation Bonds – Self-Supporting**Product Development Program General Obligation Variable Rate Demand Bonds, Series 2005A**

- A revolving loan fund was created for the purposes of aiding in the development and production, including the commercialization, of new or improved products in the state.
- Issued May 18, 2005.
- \$25,000,000; all authorized bonds have been issued.
- Source of revenue for debt service – loan repayments, which are designed to support both debt service and programs costs. In addition, cash reserves of \$830,000 are set aside to provide a cushion for unforeseen cash flow mismatches.
- Loans are collateralized with the State's security interest in the capital assets.

Bond Indebtedness (continued)

- Bondholders may tender the bonds for repurchase every seven days. Any bonds tendered will be purchased with proceeds from loan repayments and/or the standby letter of credit until remarketed.
- Demand bonds for the Product Development Program and the Small Business Incubator Program are backed by a standby bond purchase agreement issued by U.S. Bank National Association for a limit of \$45,419,179 which expires on June 1, 2018. The Product Development Program incurs an estimated annual cost of \$61,596 for this agreement. As of August 31, 2015, no principal drawings have been made on the standby bond purchase agreement. The Office does not have a take-out agreement as part of this bond purchase agreement or as a separate agreement.

Small Business Incubator General Obligation Variable Rate Demand Bonds, Series 2005B

- A revolving loan fund was created for the purposes of fostering and stimulating the development of new or existing small businesses in the state.
- Issued May 18, 2005.
- \$20,000,000; all authorized bonds have been issued.
- Source of revenue for debt service – loan repayments, which are designed to support both debt service and programs costs. In addition, cash reserves of \$670,000 are set aside to provide a cushion for unforeseen cash flow mismatches.
- Loans are collateralized with the State's security interest in the intangible assets.
- Bondholders may tender the bonds for repurchase every seven days. Any bonds tendered will be purchased with proceeds from loan repayments and/or the standby letter of credit until remarketed.
- Demand bonds for the Product Development Program and the Small Business Incubator Program are backed by a standby bond purchase agreement issued by U.S. Bank National Association for a limit of \$45,419,179 which expires on June 1, 2018. The Small Business Incubator Program incurs an estimated annual cost of \$50,396 for this letter of credit. As of August 31, 2015, no principal drawings have been made on the standby bond purchase agreement. The Office does not have a take-out agreement as part of this bond purchase agreement or as a separate agreement.

Texas Military Value Revolving Loan Program General Obligation Bonds, Series 2007A-1, Series 2007A-2, and Taxable Series 2007B

- A revolving loan fund was created to provide loans to defense-related communities for economic development projects, including projects that enhance military value of installations located in Texas.
- Issued March 15, 2007.
- \$250,000,000 authorized – \$49,595,000 issued: \$10,815,000 under Series 2007A-1, \$10,160,000 under Series 2007A-2, and \$28,620,000 under Series 2007B. Bond authority of \$200,405,000 remains unissued.
- Bonds totaling \$450,000 matured in fiscal year 2011; \$465,000 matured in fiscal year 2012; \$1,280,000 matured in fiscal year 2013; \$1,340,000 matured in fiscal year 2014; \$9,690,000 principal outstanding of Series 2007A-2 was defeased on September 12, 2013; and \$1,150,000.00 matured in fiscal year 2015, leaving an outstanding principal obligation of \$35,220,000.
- Debt service payments are processed by the Texas Public Finance Authority by means of shared funds established in the Treasury.
- Source of revenue for debt service – loan repayments, which are designed to support both debt service and programs costs. Any interest rate resets are mirrored in the interest rate provisions in the underlying loan so as to create a match in interest rate payments from the borrower with interest payments to the bondholders.
- Loans are collateralized with the State's interest in the agreements financed with the loan proceeds.
- Bondholders do not have the authority to tender the bonds for repurchase.

Early Extinguishment

No early extinguishment of debt occurred during fiscal year 2015.

Refunding

No advance or current refundings occurred during fiscal year 2015.

NOTE 7: Derivative Instruments

NOTE 8: Leases

The Office leases office space and equipment under operating leases. Included in the expenditures reported in the financial statements are the following amounts which were due under operating lease obligations:

Fund Type	Amount
General Revenue Funds (Agency 301)	\$140,368.74
General Revenue Funds (Agency 300)	\$322,175.29
Proprietary Funds (Agency 300)	\$ 1,704.55
Discrete Component Units (Agency 300)	\$139,110.85

Office space leases either have a term of one year or are cancelable but the equipment leases are non-cancelable. Future minimum lease rental payments under non-cancelable operating leases having an initial term in excess of one year are as follows:

Non-cancelable Operating Lease Obligations

NOTE 12: Interfund Activity and Transactions

The Office experienced routine transfers with other state agencies, which were consistent with the activities of the fund making the transfer.

NOTE 13: Continuance Subject To Review

(Not Applicable)

NOTE 14: Adjustments to Fund Balances and Net Position

During fiscal year 2015, there were no adjustments were made which required the restatement of the amounts in fund balances or fund equity.

NOTE 15: Contingencies and CommitmentsFederal Assistance

The Office has received several federal grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to a request for reimbursements to the grantor agencies for expenditures disallowed under the terms of the grant. Based on prior experience, management believes such disallowances, if any, will be immaterial.

Unpaid Claims and Lawsuits

The Governor of the State of Texas or staff of the Office are defendants in pending litigations related to public information requests, State administration, policy disagreements and denial of incentives. While plaintiffs seek attorney fees and damages in these lawsuits, no liability is recorded because adverse rulings with attendant financial liability are not probable.

Contingencies and Commitments (continued)**Contingent Revenue**

Future contingent revenues generated by the Emerging Technology Fund (5124) such as royalties and intellectual property rights will be recorded as revenue to the Governor's University Research Initiative (5160) when collected..

NOTE 16: Subsequent Events

On September 1, 2015 the Emerging Technology fund (5124) was abolished pending final wind down and liquidation of the fund. Cash balances existing as of August 31, 2015 were divided among various state agencies as required by statute and the majority of the investments were transferred to Treasury Safekeeping Trust Company for management of the wind down. Future financial benefits of the fund such as royalties will be credited to the Governor's Research Initiative (5160) which is the successor fund to the Emerging Technology Fund.

On September 1, 2015 the Event Trust Funds were transferred from the State Comptroller to the Office of the Governor.

As required by H.B. 2667 of the 84th Regular Session, the Texas Small Business Development Corporation was dissolved as soon as practicable after September 1, 2015.

Effective September 1, 2015 the Event Trust funds were transferred from the State Comptroller to the Office of the Governor.

NOTE 19: The Financial Reporting Entity

As required by generally accepted accounting principles, the financial statements present the Office and its component units. The component units discussed in this note are included in the Office's (Agency 300's) reporting entity because of the significance of their operational or financial relationships with the Office. These component units are legally separate from the State but have a relationship with the State such that exclusion would cause the financial statements to be misleading or incomplete.

Individual Component Unit Disclosures***Blended Component Units***

Blended component units' financial data are reported in a separate special revenue fund column (USAS GAAP fund 9999) of the governmental fund type as if these legally separate organizations were part of the government since its purpose is to provide a service to the government. A single blended component unit, the Texas Governor's Mansion Restoration Fund, is included in these financial statements (USAS GAAP Fund 9999, U/F 7010). The Texas Governor's Mansion Restoration Fund closed as of November 12, 2014.

Financial Reporting Entity (continued)

The Texas Governor's Mansion Restoration Fund (TGMRF) was a 501(c)(3) corporation established to help the Office raise awareness and provide financial assistance to the State for the restoration of the Texas Governor's Mansion. The First Lady of Texas served as a board member. While legally separate from the Office, TGMRF was closely related to and administered by the Office. The corporation's financial statements, for its short fiscal year from September 1, 2014 to its closure on November 12, 2014, are available from the Office's Financial Services Division.

Discretely Presented Component Units

Discrete component units' financial data are reported in separate columns in the combined financial statements to emphasize that they are legally separate from the Office.

The Texas Disaster Relief Fund (TDRF) is a 501(c)(3) corporation established to help the Office provide disaster relief. The services provided by TDRF assist the Office in responding to the needs of the citizens before, during, and after a disaster in Texas. While legally separate from the Office, TDRF is closely related to and is administered by the Office. The corporation's financial statements, for its fiscal year ending December 31, 2014, are available from the Office's Financial Services Division.

The Texas Small Business Industrial Development Corporation (TSBIDC) was a non-profit corporation. TSBIDC was chartered in 1983 under the Development Corporation Act of 1979 to promote economic development in Texas. The governor appointed the Board and could remove board members at will. The Articles of Incorporation and Bylaws of TSBIDC could be changed only with the approval of the Office. The executive director of the Office's Division of Economic Development and Tourism and a Governor's designee served as non-voting, *ex officio* directors. The services provided by TSBIDC primarily benefitted the Texas citizenry through supporting job creation and capital investment for businesses and communities in Texas. The corporation's financial statements, for its fiscal year ending August 31, 2015, are available from the Office's Financial Services Division. As required by H.B. 2667 of the 84th Regular Session, TSBIDC was closed as soon as practicable after September 1, 2015.

The Texas Economic Development Corporation (TEDC) is a 501(c)(3) corporation established by the legislature to benefit the Texas citizenry by carrying out some of the same public purposes as the Office's Division of Economic Development and Tourism. The services provided by TEDC assist, promote, develop, and advance economic development in Texas. The governor appoints the Board and may remove board members at will. The board of TEDC and the executive director of the Office's Division of Economic Development and Tourism determine when specific services will be addressed jointly by the office and TEDC. The corporation's financial statements, for its fiscal year ending December 31, 2014, are available from TEDC, P.O. Box 684702, Austin, Texas 78768.

The Beacon State Fund is a 501(c)(3) corporation which was created to support the goals of the Governor's Commission on Women in promoting issues affecting the women of Texas. The corporation benefits the Texas citizenry by increasing public awareness of issues affecting the women of Texas through distributing information, holding media events, and supporting community outreach programs which are consistent with the goals of the Commission. The Office appoints the Board and provides reasonable use of its office facilities and personnel. The corporation's financial statements for its fiscal year ending December 31, 2014, are available from the Governor's Commission on Women.

The State Agency Council was also established to support the goals of the Governor's Commission on Women. The Council is a 501(c)(3) corporation that assists the Commission in benefiting the Texas citizenry by honoring women who have made significant contributions to Texas through their work in state government, providing opportunities for professional development to its state agency representatives and supporting community outreach programs consistent with the goals of the Commission. The Director of the Governor's Commission for Women appoints the Board and has significant operational influence on the activities of the corporation. The corporation's financial statements, for its fiscal year ending August 31, 2015, are available from the Governor's Commission on Women.

The Film Texas Fund is a 501(c)(6) corporation which was created to promote the development of the film, television, and multimedia industry in Texas in close cooperation with the Texas Film Commission. While legally separate from the Office, Film Texas Fund is closely related to and administered by the Office. The corporation's financial statements, for its fiscal year ending December 31, 2014, are available from the Office's Financial Services Division.

Financial Reporting Entity (continued)

The Texas Governor's Mansion Administration (TGMA) is a non-profit corporation which supports the financial administration of catering and facility expenses associated with use of the official residence of the Governor of the State of Texas for non-political events and operations. While legally separate from the Office, TGMA is closely related to and administered by the Office. The corporation's financial statements, for its fiscal year ending December 31, 2014, are available from the Office's Financial Services Division.

SCHEDULE 1A - Schedule of Expenditures of Federal Awards
For the Fiscal Year Ended August 31, 2015

NOTE 1: Not Applicable

NOTE 2: Reconciliation

Below is a reconciliation of the total federal pass-throughs and federal expenditures as reported on the Schedule of Expenditures of Federal Awards to the total of federal revenue and federal grant pass-through revenue as reported in the general purpose financial statements. Generally, federal funds are not earned until expended, therefore, federal revenue equals federal expenditures for the reporting period.

Per Combined Statement of Revenue, Expenditures, and Changes in Fund, Balances/Statement of Activities- Governmental Fund Types, (Exh. II):

Federal Revenue (Exh. II)	\$ 67,012,148.34
Federal Pass-Through Revenue (Exh. II)	<u>573,836.17</u>

Total Pass-Through and Expenditures per Schedule of Expenditures of Federal Awards	<u><u>\$ 67,585,984.51</u></u>
--	--------------------------------

NOTES 3 - 6: Not Applicable

NOTE 7: Federal Deferred Revenue

NOTE 8: Not Applicable

Federal deferred revenue represents the following:

CFDA 16.523 and 16.738: Federal award amounts that are issued at the beginning of the grant period rather than on a reimbursement basis.

CFDA 16.593: Federal award amounts refunded by non-state agency grantee that will be awarded to other grantees.
