

OFFICE OF THE GOVERNOR

RICK PERRY
GOVERNOR

December 12, 2013

The Honorable Barack Obama
President of the United States
The White House
1600 Pennsylvania Avenue, NW
Washington, D.C. 20500

Through: Regional Administrator Tony Robinson
FEMA Region 6
Denton, Texas

RE: REQUEST FOR PRESIDENTIAL DISASTER DECLARATION

Dear Mr. President:

Under the provisions of Section 401 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§5121-5207 and implemented by 44 CFR §206.35 and §206.36, I request that you declare a major disaster for the State of Texas as a result of excessive flooding in Caldwell, Hays and Travis counties, beginning on October 30, 2013 and continuing through November 16, 2013.

I issued a state disaster proclamation on December 12, 2013.

On October 30, 2013, an upper level disturbance, a cold front and deep tropical moisture converged over south central Texas. The heavy rain threat was enhanced by remnants of weakening Tropical Storm Raymond in the Eastern Pacific. Severe thunderstorms flooded watersheds in Caldwell, Hays and Travis counties.

In less than 24 hours, rainfall totals in the three-county area reached more than 12 inches, causing watershed basins to overflow and dumping massive amounts of water into creeks in the area. Rainfall amounts exacerbated the situation as a similar storm two weeks earlier had saturated soils in the area.

Various creeks and rivers overflowed, including: the Blanco River, Wood Creek, Onion Creek, Bull Creek, Williamson Creek, Slaughter Creek, Walnut Creek, the Colorado River and the San Marcos River. There were other minor flooding events across central and eastern Texas.

This incident caused six confirmed fatalities and numerous injuries. Flooding caused widespread damage to homes, businesses and public infrastructure across the state, resulting in the need for significant debris removal operations, which continue today.

Extensive search and rescue operations began early October 31 and continued for several days. The last missing person was recovered from a submerged vehicle on November 12. Although authorities knew the victim's location, waters in the river were too treacherous to attempt recovery until November 12.

The majority of residential and commercial damage centered in the Onion Creek area of the City of Austin in Travis County. Onion Creek reached an historic crest at 40 feet, overflowing and causing severe damage to entire neighborhoods. The previous record was set in 1869 and 1921 at 38 feet. The last major flood in this area was in 2001 when the creek reached 36.5 feet.

Flood gauges were damaged by raging waters, causing limited warning and catching residents and officials off guard. Some flooding occurred outside the normal floodplain and the rapid rise in the creek occurred overnight when most residents were asleep. Residents were cut off from evacuation routes by rapidly rising water. Most evacuations occurred after flooding caused significant damage to homes and vehicles. Many residents were rescued from roofs and cars tops.

The Onion Creek area consists of working families who, according to a Census Bureau report, have a median household income under \$40,000 — well below the state and national average. There was also damage in rural areas of Hays and Caldwell counties. In addition to being an area with lower household income, residents in this area are severely underinsured and uninsured.

Travis County EMS evacuated 625 homes. Several shelters opened for flood victims and remained open until November 15, the same day the Austin Police Department was able to return to normal activities in the affected neighborhoods.

Several elementary schools closed due to impassable roads and power outages. More than 3,800 homes experienced power outages.

Local Individual Assistance (IA) damage assessments were conducted for Caldwell, Hays and Travis counties. Results from these assessments initiated a request for a joint state/FEMA/Small Business Administration (SBA) IA damage assessment, which was conducted in the same counties November 8-10, 2013. This joint IA damage assessment for homes in Travis, Caldwell and Hays counties resulted in a finding that 858 homes were impacted as tabulated in the enclosure. This includes 82 affected, 169 with minor damage, 469 with major damage and 138 destroyed.

While only 287 of the 607 homes that were destroyed or incurred major damage were uninsured, interviews with the homeowners indicated that a significant number of those with flood insurance did not carry contents insurance. In addition, about 20 percent of the area consists of rental homes. Most of these are not insured for contents.

We believe that the number of underinsured homes that were destroyed or withstood major damage, including those that were uninsured, is more than 400. In addition, there were more than 75 private businesses/nonprofit entities that sustained damage, with more than 25 of these having damages classified as major or destroyed. It is also noted that 70 recreational vehicles (RV) were destroyed in an RV park in Caldwell County.

Long-term recovery planning started with initial meetings on November 13. Both the City of Austin and Travis County have indicated they will attempt to implement a limited buyout program, dependent on available funding, for the hardest-hit areas. This could be further limited by the amount of infrastructure damage sustained.

Critical infrastructure facilities, such as water treatment plants, roads and bridges, were also damaged. Public water systems, including lift stations, were offline due to water line damage for which personnel rerouted systems to restore service.

Several roads and bridges were temporarily closed due to damage and the River Road Plantation Bridge in Travis County will remain closed until extensive repairs can be made to the infrastructure.

Significant debris removal operations have been and continue to be necessary. This includes curbside removal of damaged housing materials and contents, as well as vegetative debris removal, carcass removal and vehicle recovery. Debris located in the watershed will hamper drainage and could result in additional flooding.

State and local Public Assistance damage assessments were conducted on November 19–26, 2013, for Caldwell, Hays and Travis counties. The results of these initiated a request for a joint state/FEMA damage assessment, which was conducted in the same counties December 3–5, 2013. Preliminary estimates of damages to public infrastructure and the amount of assistance needed for debris removal and emergency protective measures under the Stafford Act indicate damages in excess of \$48 million and are tabulated in the enclosure.

A summary of the types of damages surveyed is found below.

Travis County

- Roads and bridges: 10 roads, 9 bridges and culverts - \$11.6M
 - River Plantation Bridge remains closed indefinitely for repairs
- Utilities: 10 sites, include lift stations, manholes, etc. - \$28.4M
- Parks, rec other: 16 locations, include public golf courses, hike and bike trails and parks - \$1.1M
- Buildings and equipment: \$563k
- Debris: 25 sites - \$3M

Hays County

- Emergency protective measures: \$37.6k
- Roads and bridges: 88 roads - \$327.7k
- Public utilities: 1 lift station - \$647k
- Parks, rec other: 11 playgrounds, 2 trails - \$108k
- Buildings: 2 – fire department and an elementary school - \$725k
- Debris: 4 sites noted with significant debris - \$22k

Caldwell County

- Roads and bridges: 32 sites - \$748k
- Water control facility: 1 site - \$10k
- Parks, rec other: 1 - \$355k
- Debris: 18 significant sites noted - \$98k

Several other counties experienced flooding, storm damage and tornadoes (touchdown in Bridge City, Texas). Either Preliminary Damage Assessments (PDA's) have not yet been done or the counties did not meet their threshold for damages during preliminary assessments.

The Salvation Army (TSA) opened three shelters, one of which remained open for approximately two weeks. Several canteens were set up to feed victims and responders. A laundry unit was provided for affected residents in Austin.

The American Red Cross (ARC) engaged with sheltering, feeding and mobile bulk food distribution. Mobile feeding continues in Caldwell, Hays, Travis and Williamson counties. There has been a large response from the Voluntary Organizations Active in Disaster (VOAD) community and other charitable organizations. This event received little media coverage nationally or regionally. While the Austin area is well known across the world and is ranked by the Census Bureau as the nation's 35th largest metropolitan area behind San Jose and Indianapolis, it is not a major television market. As a result, the VOADs are reporting limited donations.

The following information is furnished on the nature and amount of state and local government resources that have been used to alleviate the conditions of this disaster:

- Texas Search and Rescue (TEXSAR), a nonprofit search and rescue and disaster response team, mobilized in Caldwell County to assist in search and rescue and incident management duties, coordinating resource requests and obtaining technical specialists for specific operational guidance.
- The Texas Department of Public Safety (DPS) provided an aircraft to assist in one hoist rescue. DPS deployed a mobile disaster unit to central Texas to issue replacement Texas

driver's licenses and identification cards to victims who lost those documents in the floods. State Troopers continue to assist in impacted areas.

- Texas Military Forces (TMF) provided seven high-profile vehicles (HPVs) with 18 personnel to support flooding in central Texas. They activated two UH60 helicopters with hoists. An additional Transportation Force Package consisting of 10 HPVs and 32 personnel was activated by the governor to respond to flooding in southeast Texas.
- The Texas Animal Health Commission (TAHC) provided two personnel to assist with deceased domestic animals and provided information on disposal locations to the public.
- 2-1-1 Texas, a program managed by the Texas Health and Human Services Commission providing information and referral services in Texas, monitored school openings and closures and continues to provide information to callers as needed.
- The Texas Department of Transportation (TxDOT) provided crews from the Austin District to assist Caldwell County with repairs to a washed out culvert. TxDOT crews continue with clean-up operations in Waco, Austin, San Antonio, Houston and Beaumont.

Over the past 12 months Texas has experienced numerous events requiring response activities, including:

- October 23, 2012: A local state of disaster declared for Concho County for excessive rain and flooding. A Public Assistance (PA) damage assessment for the county was \$62,894.68.
- November 12, 2012: A local state of disaster declared for the City of Marlin resulting from a failure of the local water system. The water production rate diminished to approximately 25 percent of normal capacity.
- December 25, 2012: A local state of disaster declared for Houston County for tornado activity and severe thunderstorms. Six structures were affected. A PA damage assessment for the county showed approximately \$135,000 in damages to the local utility co-op.
- April 17, 2013: A Presidential Disaster declared (DR and EM) for the West Fertilizer Plant explosion. PDAs are in excess of \$35 million. Project worksheet (PW) coordination is ongoing.

- May 15, 2013: A local state of disaster declared in North Texas for a severe outbreak of tornadoes, resulting in numerous fatalities and damage to over 100 homes and businesses. PA damages exceeded \$1.4 million.
- May 23, 2013: A local state of disaster declared in Kent County for severe storms with large hail damaging five homes.
- May 25–27, 2013: A local state of disaster declared for the City of San Antonio and Bexar County for severe flooding damaging more than 200 homes and three businesses with an estimate of more than \$7 million in damage to infrastructure.
- June 14–15, 2013: A local state of disaster declared for the City of Eagle Pass and Maverick County for severe flooding damaging more than 300 homes and causing more than \$6 million in damage to local infrastructure.
- July 14–16, 2013: A local state of disaster declared for Callahan County for severe flooding causing more than \$500,000 in infrastructure damage.
- July 14–17 2013: A local state of disaster declared for Eastland County for severe flooding causing more than \$80,000 in infrastructure damage.
- September 11–13, 2013: A local state of disaster declared for the City of El Paso and El Paso County for severe flooding damaging 37 homes and causing more than \$1.3 million in infrastructure damage.
- October 13, 2013: A local state of emergency declared for the City of Turkey and Hall County for severe flooding causing extensive damage to roads and bridges.
- Ongoing: The Governor of Texas continues to renew a Statewide Drought Proclamation in effect for the past 36 months. The proclamation states that drought conditions have reached historic levels and continue to pose an imminent threat to public health, property and the economy. The April 2013 proclamation included 240 of the 254 counties in Texas. These 240 counties have a combined population of 24,637,554 and cover a total of 255,689 square miles.
- Ongoing: The United States Department of Agriculture (USDA) has issued multiple agricultural drought declarations over the last 24 months including all 254 Texas counties.

In addition to these recent events, Texas is still recovering from the 2011 wildfires, the worst in Texas history, receiving two presidentially declared disasters (DR 4029 and DR 1999) and

devastating wildfires at Livermore Ranch in West Texas for which they received a Fire Management Assistance Grant (FMAG) in 2012.

The following information provides detailed information on the impacted population.

	Average of Persons Below Poverty Level**	Median Household Income**	Percent Elderly**	Percent Pre-Disaster Unemployment*
National Average	14.3%	\$52,762	13.7%	7.4%
State Average	15.8%	\$48,259	10.5%	6.4%
Caldwell County	20.7%	\$43,136	12.6%	7.7%
Hays County	16.4%	\$58,247	9.2%	5.7%
Travis County	16.6%	\$55,452	7.8%	5.4%
Williamson County	6.3%	\$71,346	9.6%	5.6%

* Bureau of Labor Statistics

**Census Bureau

Pursuant to 44 CFR §206.35 and §206.36, this incident is of such magnitude and severity that effective response is beyond state and local capabilities and supplementary federal assistance is necessary to save lives, protect property, public health and safety, and lessen the impact of the disaster.

As a result of this disaster, the State of Texas is specifically requesting a major disaster declaration for Individuals and Households Programs (IA), Other Needs Assistance (ONA), Crisis Counseling, Disaster Unemployment Assistance, Disaster Legal Assistance, Disaster Case Management, Public Assistance and Hazard Mitigation to support the citizens of the State of Texas.

Sincerely,

Rick Perry
Governor

RP:dzk

**REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
 MAJOR DISASTER OR EMERGENCY**

1. Request Date Dec 12, 2013

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C.F.R. §§ 206.35 and 206.36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C. § 5122) or Indian tribal government requesting declaration. Texas	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s). 25,145,561
---	--

3. Governor's or Tribal Chief Executive's Name Rick Perry	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number W Nim Kidd 512-424-2436
--	--

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number
 W Nim Kidd 512-424-2436

6. Declaration Request For: Major Disaster (Stafford Act Sec. 401) Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date End Date
 Oct 30-Nov 16 Oct 30, 2013 Nov 16, 2013 or Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

Drought Earthquake Explosion Fire Flood Hurricane Landslide Mudslide
 Severe Storm (rain, high water, wind-driven rain, hail, lighting) Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) Straight-Line Winds
 Tidal Wave Tornado Tropical Depression Tropical Storm Tsunami Volcanic Eruption Winter Storm
 Other (please specify) _____

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.
 Heavy rains produced extreme flash flooding over large portions of Texas. The rising waters and flooded roads posed a threat to life and numerous swift water rescues were necessary. Flooding was noted in 15 counties, affecting a population of several thousand and causing damage to over 800 homes and many businesses. Evacuations of over 1000 people took place. Initial flooding occurred quickly and with little warning; there have been 6 fatalities. One county experienced a tornado touchdown causing damage to 12 homes. Three shelters were in operation with one remaining open until November 15th. Livestock deaths have been reported and a need for the disposal of animal carcasses is being addressed. There were school closures and or late openings in all counties involved. Flooding affected some waste water treatment plants which continue to be monitored and assessed. There is significant debris that includes vegetative debris, vehicles, animal carcasses, curb-side trash of damaged housing materials and contents.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.
 The State operation center was activated and personnel assisted the Austin/Travis County EOC. The Texas Department of Public Safety responded with aircraft to assist in water rescues, troopers assisted with road barriers and personnel provided replacement driver licenses and ID cards to flood victims at a Mobile Disaster Unit. Texas Parks and Wildlife provided 20 responders to respond to flash flooding in 5 counties. Texas Military Forces provided HPVs and personnel for flooding support and an additional transportation force package was activated to respond to flooding in East Texas. The Salvation Army provided laundry and canteen services and a canteen. Texas Baptist Men provided meals, showers and laundry services in Travis County. ARC provided sheltering services in Travis County and bulk food distribution. There are several other local and regional VOADs assisting. State, FEMA and SBA damage assessment teams were deployed to conduct individual and public assistance damage assessments of homes, businesses and public infrastructure in Caldwell, Hays, Travis and Williamson counties.

10. Joint Preliminary Damage Assessment*

Individual Assistance Dates Performed **Requested** Nov 5, 2013 **Start** Nov 8, 2013 **End** Nov 10, 2013

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)

Public Assistance Dates Performed **Requested** Nov 22, 2013 **Start** Dec 3, 2015 **End** Dec 6, 2013

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)

11. Programs and Areas Requested

Individual Assistance N/A Individuals and Households Program Crisis Counseling Program Disaster Unemployment Assistance Program
 All Disaster Case Management Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Individuals and Households Program; Crisis Counseling; Disaster Unemployment Assistance; Disaster Case Management and Disaster Legal Services for Caldwell, Hays and Travis counties.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).

Please see **Enclosure A: Supplemental Information for Individual Assistance** for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance N/A Debris Removal (Category A) Emergency Protective Measures (Category B) Permanent Work (Categories C-G)*
(not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

All categories for public assistance in Caldwell, Hays and Travis counties.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

I do not anticipate the need for debris removal.

I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

I do not request direct Federal assistance at this time.

I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

N/A I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* Statewide

OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date October 2016 b. Type of Plan Enhanced Standard

13. Other Federal Agency Programs

I do not anticipate requirements from Other Federal Agencies I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C: Requirements for Other Federal Agency Programs** for additional information in support of this request*.

14. Findings and Certifications

I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Dec 12, 2013 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

- Cover Letter Enclosure A (Individual Assistance)* Enclosure B (Public Assistance)*
 Enclosure C (Requirements for Other Federal Agency Programs) Enclosure D (Historic and Current Snowfall Data)
