Dear Mr. Pressman:

Here at the Texas Film Commission, we proudly display the posters from the feature film projects we have assisted while on location in Texas. A film shot entirely in the state is a special source of pride, and we enjoy showing off the posters to our visiting producers. TRUE STORIES is a project our office spent long and careful hours with in preproduction and production, and we would appreciate it if you could send us a poster we can include in our collection. Advance word on TRUE STORIES is quite good and we anxiously await a screening.

Please let us know if we may ever be of assistance on a future project. We look forward to working with you again in Texas.

Sincerely,

TEXAS FILM COMMISSION
