Incubator Profiles.....	1
Index by Specialization and State Region	53

About this Directory

Texas has a strong entrepreneurial spirit that inspires innovative thinking and visionary action. Throughout the state, Texas business incubators provide entrepreneurs with inexpensive startup environments and a range of administrative, consulting, and networking services. These incubation programs come in many shapes and sizes and serve a variety of industry sectors. They are generally managed by economic development agencies, chambers of commerce, local governments, for-profit businesses, colleges, or universities. This directory relies on the National Business Incubation Association’s (NBIA) definition of business incubators, also referred to as accelerators, which are dedicated to serving entrepreneurs and startups. The U.S. Small Business Administration’s (SBA) Small Business Development Centers (SBDC) are not included in this definition, since they serve small businesses in all stages of development.

Of the 103 Texas incubators identified in this directory, 61 percent are focused on high tech fields, with specializations ranging from biotechnology, communications, energy, to information technology. Among these high tech incubators, thirteen are solely dedicated to biotechnology, while four others are wholly energy-focused. Many other incubators take a broader approach and work with clients across industries. These multiple-industry incubators account for 33 percent of all business incubators in Texas. By state region, Central Texas accounts for 31 percent of the directory’s incubators, followed by North Texas with 28 percent, West Texas with 20 percent, the Gulf Coast with 18 percent, South Texas with 11 percent, and East Texas with less than one percent.

In addition to this publication, information about business incubators and other business support services can be obtained from a range of sources, including local economic development entities, chambers of commerce, city and county government offices, institutions of higher education, and the U.S. SBA.

The Texas incubators/accelerators listings in this directory are representational, in large part because these entities are very dynamic: going in and out of existence and changing their names, points of contact, services, and focus.

Business Incubator Profiles

3 Day Startup (3DS)

Location: Austin, College Station, Houston, San Antonio

Founded: 2008

Website: <http://3daystartup.org/>

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Provides rented workspace for an entire weekend, recruits student participants from a wide range of backgrounds, caters food and drinks, and brings in top-notch entrepreneurs and investors
- Participants pick the best ideas for startups during the Friday brainstorming session and deliver prototypes and investor pitches on Sunday night
- 3DS alumni receive a package of free/discounted services from information technology (IT) services companies and others

Additional Information: 3 Day Startup (3DS) was founded in 2008 at the University of Texas at Austin (UT Austin). Originally a student organization, 3DS is now a non-profit organization partnering with many academic institutions, including Rice, Texas A&M, Trinity University (in San Antonio), the University of Houston, UT Austin, Harvard, and MIT. 3DS' goal is simple: to jumpstart all types of companies over the course of three days. The program has spread to other schools around the world and widened its focus from tech to all industries.

Abilene Laboratories (abLABS)

Location: Abilene

Founded: 2010

Website: <http://abilenelaboratories.com/>

Specialization: Biotech – Life Science

Services & Facilities:

- 22,000 sq. ft. laboratory including a 2,000 sq. ft. clean room and available wet lab space
- Business services including market development, networks, and capital access
- State-of-the-art facility with the latest equipment run by world-class scientists and a neighboring mammalian genetics research unit
- Industry services including pre-clinical formulation, vaccine process, cell line, reagents, and assay development; imaging technology and experimental pathology; and antibody generation & screening

Additional Information: Formerly known as (FKA) Abilene Life Sciences Accelerator, Abilene Laboratories (abLABS) is now the home of the Texas Tech University - Health Science Center, School of Pharmacy's Center for Immunotherapeutics Development. abLABS also operates a Proof-of-Concept Center that provides assistance to bring products and services to market, specializing in biologics, immunotherapeutics, immunodiagnostics, assay development, imaging technology, and animal models and formulation. Focused on leveraging technologies in immunotherapeutics and immunodiagnostics, abLABS and the surrounding Life Sciences Enterprise Zone offer space for companies seeking to expand their operations and work alongside some of the industry's leading scientists.

Accelerated Ventures at Baylor University

Location: Waco

Founded: N/A

Website: www.baylor.edu/business_new/entrepreneurship/index.php?id=89585

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Access to the facilities and resources of thInc Space, a Waco-Baylor incubator
- Led by Baylor faculty, alumni, and a board of veteran serial entrepreneurs
- Connections to the Waco entrepreneurial ecosystem

Additional Information: Accelerated Ventures (AV) is an innovative two semester course at Baylor University that enables students to create real companies, raise real funds, launch products and services, and generate sales. Course materials focus on Internet sales and entrepreneurship students experience the startup process first-hand, taking a company from its conceptualization phase to exit. AV compliments other organizations throughout Greater Waco that are working to support small business and startup activity. AV is headquartered at the Waco incubator, thInc Space, a Baylor University - Greater Waco Chamber partnership.

AccelerateH2O

Location: San Antonio

Founded: 2014

Website: www.accelerateh2o.org

Specialization: High Tech – Water Technologies

Services & Facilities:

- AccelerateH2O discovers, invests in, and promotes new and existing technologies that have potential to fill demands and needs in Texas' \$9 billion water technology market by addressing critical water issues, barriers, and unique opportunities

Additional Information: AccelerateH2O is a non-profit organization, born out of the Texas Research & Technology Foundation in 2014, that provides open research and resources for water technology startups. It plans to provide a database of technical papers and patents from Texas's academic institutions and research organizations. Still in its early stage, the accelerator received a \$500,000 grant from the Texas Research and Technology Foundation to initiate its first program focused on identifying critical water issues within the state. The organization will focus on investing and promoting new and existing technologies including direct water reuse, concentration management, and zero liquid discharge for difficult-to-treat wastewaters. Further accelerator program details TBD.

AccelerateNFC

Location: Richardson

Founded: 2013

Website: www.acceleratenfc.com

Specialization: High Tech – Communications

Services & Facilities:

- Selected companies participate in an intensive 12 week mentoring program designed to provide access to resources normally beyond the reach of startup or early stage companies
- Selected companies work one-on-one with industry-experienced and successful entrepreneurs, investors, and advisors for maximum commercialization and success

Additional Information: The AccelerateNFC program is a mentor-driven, mentor-funded idea incubator/success accelerator for high potential companies. It focuses on near field communication (NFC) companies, matching the highest caliber talent, resources, and funding with companies that are ready to take their ideas and products to the next level. AccelerateNFC was launched by Dallas entrepreneur and investor, Robert Sabella, a principle at OTA Ventures and the founder of NFC Bootcamp.

The Accelerator at Texas Tech University

Location: Lubbock

Founded: 2005

Website: <http://innovatetexastech.com/accelerator/>

Specialization: High Tech – Multiple Industries

Services & Facilities:

- 4 month program for teams of students and entrepreneurs working alongside inventors and mentors to launch a new venture and present that venture at a demo day to an audience of venture capitalists, angel investors, and business leaders
- Provides Texas Tech students with a real world entrepreneurial experience and the tools to launch and successfully operate a high tech startup

Additional Information: The Accelerator (FKA the TECHcelerator) at Texas Tech University (TTU) launches startups based on disruptive technologies discovered and developed in university research labs. The program combines cutting-edge inventions discovered in research labs with entrepreneurs, students, inventors, experienced mentors, collaborative office space, and intensive curriculum based on the Lean Startup Methodology to launch new companies and move inventions from the lab to the market.

The Alliance for Higher Education (AHE)

Locations: Dallas and Sulphur Springs
Founded: 2005
Website: www.ntxrcic.org
Specialization: High Tech – Multiple Industries

Services & Facilities:

- Mentoring, coaching, and introductions to capital, research, and academic resources, as well as business connections
- Programs include C-level executive breakfast seminars, quarterly pitch days, and Tech Success, an annual technology showcase for all types of stakeholders
- Sponsors/partners with area incubators; partners with area universities and their Technology Transfer offices
- Dallas facility offers conference rooms, class rooms that seat up to 40, and open offices for day use
- Satellite facility in Sulphur Springs offers similar facilities, plus long-term entrepreneurial leasing space

Additional Information: The Alliance for Higher Education (AHE) serves the North Texas entrepreneurial community by creating opportunities to raise capital for technology-based startup ventures and connecting companies and entrepreneurs with valuable resources to build scalable businesses. The AHE specializes in technology-based startups and functions as a one-stop shop, working with and connecting entrepreneurs, investors, universities, government, and businesses.

AT&T Foundry - Plano

Location: Plano
Founded: N/A
Website: <http://developer.att.com/developer/forward.jsp?passedItemId=5300164>
Specialization: High Tech – Communications and Information Technology

Services & Facilities:

- Foundry services are available immediately to all Innovators who join the AT&T Developer Program and then register with the Foundry
- AT&T design, technology, and business specialists work directly with participants at on-site facilities; Innovators can access the Foundry Community and its resources
- Tools and staffing are specialized for developing Innovations for a Business customer

Additional Information: The AT&T Foundry facilitates innovation development through a diverse collaborative community supported by a network of strategic technology companies. This open environment enables a range of IT and communications-related innovation that includes applications, devices, cloud services, enabling technologies, and operational support.

ATI Clean Energy Incubator at the University of Texas at Austin

Location: Austin

Founded: 2001

Website: <http://ati.utexas.edu/current-portfolio/clean-energy/>

Specialization: Energy & Clean Tech – Service-Based Focus

Services & Facilities:

- Access to professional ATI staff members, contributing students and staff from UT Austin, and a community of advisors, mentors, and investors
- Access to public and private capital; assistance with the process of applying for Federal grants such as Small Business Innovation Research (SBIR) awards

Additional Information: The Austin Technology Incubator (ATI) Clean Energy Incubator at UT Austin is one of the longest established energy and clean tech incubators in the U.S. The ATI Clean Energy Incubator is an offshoot of UT Austin's ATI.

Austin Technology Incubator (ATI) at UT Austin

Location: Austin

Founded: 1989

Website: www.ati.utexas.edu

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Access to professional ATI staff members, contributing students and staff from UT Austin, and a community of advisors, mentors, and investors
- Access to public and private capital; assistance with the process of applying for Federal grants such as Small Business Innovation Research (SBIR) awards

Additional Information: The Austin Technology Incubator (ATI) is a non-profit unit of the IC2 Institute of UT Austin, although there is no requirement for ATI companies to be UT Austin affiliated. The ATI is a startup incubator that harnesses business, government, and academic resources to provide strategic counsel, operational guidance, and infrastructure support to its member companies and helps them transition from early stage ventures to successful technology businesses. Its focus includes Bioscience, IT, Wireless Networking and Communications, and Clean Energy, spearheaded by the ATI Clean Energy Incubator (CEI). Since 2008, ATI graduates have raised over \$270 million.

BioHouston

Location: Houston

Founded: 2001

Website: www.biohouston.org

Specialization: Biotech – Life Science

Services & Facilities:

- Matchmaking services through one-on-one meetings between startups and established pharmaceutical, biotech, and medical device companies
- Hosts the annual Texas Life Science Conference, the largest conference of its kind in Texas
- Partners with the Biotechnology Commercialization Center (BCC) at the University of Texas Health Science Center at Houston

Additional Information: BioHouston, Inc. is a non-profit corporation founded by Houston area academic/research institutions. BioHouston, through its division, Texas BioAlliance, provides development and commercialization expertise to researchers and early-stage companies. Texas BioAlliance is able to support the development of life science technology by providing critical expert product development guidance and management of project activities for fledgling companies not looking to hire full time employees. It also has a highly successful record of assisting companies with grant submissions, including the Cancer Prevention & Research Institute of Texas (CPRIT) and SBIR proposals. BioHouston companies may also incubate at the BCC.

Biotech Manufacturing Center of Texas (BMC)

Location: Athens

Founded: 2004

Website: www.bmc-texas.org

Specialization: Biotech – Medical Devices

Services & Facilities:

- Facility is registered with the FDA and ISO13485 certified
- Medical-grade machine and tooling, injection molding, extrusion and assembly capabilities, clean rooms, and more
- Incubator office space
- Expert assistance with specification R&D, development, engineering, prototypes, marketing, business planning, budgeting, manufacturing, packaging, and more

Additional Information: The Biotech Manufacturing Center of Texas (BMC) is the nation's only full-scale manufacturing biotech incubator. It operates as a non-profit contract manufacturer of medical devices/components, as well as providing incubation and startup services for innovators wishing to enter the industry. The BMC has strategic alliances with Texas Manufacturing Assistance Centers, Texas A&M Engineering Extension Service, and the Automation & Robotics Research Institute at the University of Texas at Arlington.

Biotechnology Commercialization Center (BCC) at the University of Texas Health Science Center at Houston (UTHSC-H)

Location: Houston

Founded: 2009

Website: <https://www.uth.edu/otm/bcc-biotechnology-commercialization-center/>

Specialization: Biotech – Life Science

Services & Facilities:

- 15,000 sq. ft. of combined laboratory, office, and shared space on three adjacent floors dedicated to startups
- Access to UTHSC-H core laboratory and animal services, as well as capital equipment
- Amenities include office and laboratory space, conference and meeting rooms, shared business services, and parking
- BioHouston's science laboratory equipment, which has been relocated to the BCC

Additional Information: The BCC's mission is to help commercialize and incubate UTHSC-H and Houston-based life science technologies, while increasing the number of Texas-based companies. The BCC operates in partnership with BioHouston and Texas BioAlliance. Located within the heart of the Texas Medical Center in Houston, the BCC provides valuable access to information, collaboration, and expertise.

Biz Owners Ed, Inc.

Location: Flower Mound

Founded: 2011

Website: <http://bizownersed.com/>

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- A 10 week advanced entrepreneur program which includes presentations from world class leaders, mentoring, and assistance with everything from entity formation, financing, strategic planning, sales & marketing, to exit strategies
- A group of experienced mentors who have successfully overcome the challenges applicants are facing

Additional Information: Biz Owners Ed is a non-profit entrepreneurial program and community for business owners across industries, providing high-level guidance and assistance from experienced and proven business mentors. The program accepts applications from those with significant ownership in companies in existence less than seven years that are generating annual revenues exceeding \$1 million with no less than five employees.

Bootstrap Dallas (BSD)

Location: Dallas
Founded: 2011
Website: <http://bootstrapdallas.com/>
Specialization: High Tech – Multiple Industries

Services & Facilities:

- Provides resources, training, and introductions into the Dallas startup community
- Offers advisory services to those who want to make a leap into entrepreneurship, but don't know where to start
- Offers guidance for funding, marketing, sales, and partnerships to existing businesses

Additional Information: Bootstrap Dallas (BSD) helps Dallas area entrepreneurs bring ideas to life with a team of entrepreneurs, designers, and marketers. BSD specializes in Mobile Development, Application Development, Branding, and Social Media Marketing.

The Brewery Incubator

Location: Houston
Founded: 2012
Website: <http://breweryincubator.com>
Specialization: Food and Beverage Industry

Services & Facilities:

- Fully-equipped commercial kitchens with commercial brewing equipment in a downtown Houston facility
- Hosts classes and workshops, tastings, tours, community brew-ins, and sponsors homebrew clubs and competitions
- Provides a pilot facility, tap room, support network, and access to potential customers/investors

Additional Information: The Brewery Incubator (BI) indicates it is the world's first coworking brewer and incubator. Its goal is to foster the development of craft breweries by providing a pilot facility, tap room, support network, and audience accessible to all aspiring brewers. The BI is co-housed at the Kitchen Incubator. It is a collaborative business in which home brewers get access to commercial brewing equipment and a pub to sell their beer as a way to determine whether they're ready to launch their own breweries.

The Business Factory at the Concho Valley Center for Entrepreneurial Development (CVCED)

Location: San Angelo
Founded: N/A
Website: www.cvced.org
Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Offers shared workspace and business infrastructure costs for phone, Internet services, etc.
- Offers seminars, exhibitions, and networking events
- Provides business assistance in conjunction with the Angelo State University’s Small Business Development Center

Additional Information: The Business Factory, provided by the CVCED, is an incubation program designed to assist small businesses and entrepreneurs in the San Angelo and the Concho Valley Area.

The Business Incubation Center (BIC) at the Bill J. Priest Campus of El Centro College

Location: Dallas
Founded: 1990
Website: www.elcentrocollege.edu/bjp/business-incubation-center
Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- 30,000 sq. ft. facility that includes conference rooms, office rentals, and weekly cleaning services
- Access to business counselors who are knowledgeable in a wide range of business topics including business expansion, government contracting, intellectual property (IP) protection, loan requirements, management, marketing, and technological and manufacturing assistance
- Low-cost and no-cost seminars available year round for training on various aspects of business management

Additional Information: The Business Incubation Center (BIC) at the Bill J. Priest Institute of Economic Development of El Centro College houses small companies, leasing office space to these startups and providing business services to them for up to four years. BIC facilitators are experts in their fields, including bank loan officers, Certified Public Accountants, environmental compliance experts, international trade experts, attorneys, and other professionals.

Business Technology Center (BTC) at Houston Business Development Inc. (HBDI)

Location: Houston

Founded: 1986

Website: www.hbdinc.org/resources/business-technology-center/

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- 160,000 sq. ft. of mixed-use business space
- Access to Business Information Center and capital and management services through the HBDI and its resource partners
- Office equipment, conference rooms, and bundled administrative support services; computer labs; free parking; P.O. box rentals; 24 hour security; conference/training rooms; on-site receptionist and notary; and voicemail/answering services
- Workshops and seminars

Additional Information: The mission of the HBDI, a non-profit corporation established by the City of Houston, is to stimulate economic growth, support the expansion of small businesses, and foster opportunities for low-moderate income citizens. The HBDI offers an array of business support services, including the BTC and loan programs.

Capital Factory

Location: Austin

Founded: 2009

Website: www.capitalfactory.com

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Provides over \$150,000 in seed funding, \$200,000 in server hosting, and access to top local business and investment community members for 2% equity in participating startups
- Includes access to 2 private desks for 3 months; access to Capital Factory events as well as speaker and education series; and eligibility for \$100,000 in matching funds from Capital Factory's AngelList Syndicate and to pitch at Capital Factory's Demo Days
- The educational curriculum through the Capital Factory University runs about six months, lead mentors work with startups for one year, and the coworking membership that comes with the program allows two founders to work at the Capital Factory for one year

Additional Information: Capital Factory's mission is to identify and nurture capital-efficient technology startups in Austin, Texas. Capital Factory hosts and sponsors other incubators and programs, including Google for Entrepreneurs Tech Hub Network, CODE2040, and UT Austin's The Food Lab and Longhorn Startup.

Catalyst Startup Program, from SoftLayer Technologies

Location: Dallas

Founded: 2013

Website: <http://www.softlayer.com/catalyst>

Specialization: High Tech – Internet-dependent products & services

Services & Facilities:

- Startup Texas members can apply for membership in SoftLayer’s Catalyst startup program, which targets technology startups, and provides IT cloud infrastructure credits, executive mentoring, and engineering resources
- Members have access to free SoftLayer servers or service up to \$1,000/month, mentoring from the company’s industry veterans, and marketing resources
- SoftLayer offers some coworking space for a fee
- Startup and early stage companies from the U.S. and abroad may apply

Additional Information: Dallas-based cloud hosting provider SoftLayer Technologies’ Catalyst Startup Program provides support to member companies from Startup Texas, a branch of Startup America, through a partnership begun in 2013. Startup America is a national non-profit organization launched by the White House in 2011 that supports a national network of entrepreneurs and is affiliated with local Startup America chapters in 30 states, including Texas. Other Catalyst partners include Tech Wildcatters and TechStars, two Texas-based incubators.

Center for Business Excellence (CBE) of Central Texas

Location: Waco

Founded: 2011

Website: www.getbusinesssmart.com

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Free business and marketing counseling, seminars and workshops, business and legal information, and computers with business software
- Professional office space rentals with full business services and equipment
- Work space with Internet, Skype videoconferencing, fax services, and more
- Training to support and strengthen small businesses
- Office & computer services including business planning software, binding machine, Wi-Fi, wide format printer, etc.

Additional Information: The Center for Business Excellence (CBE) of Central Texas is a non-profit organization dedicated to offering entrepreneurs resources to grow and succeed in business. The CBE is a division of the Cen-Tex African American Chamber of Commerce and was established thanks to a grant from the U.S. Small Business Administration. CBE services include a *Kitchen Entrepreneur Program*, designed to train and support local food industry entrepreneurs and businesses.

Center for Innovation & Entrepreneurship at Trinity University

Location: San Antonio

Founded: 2013

Website: <http://new.trinity.edu/academics/departments/center-innovation-and-entrepreneurship>

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Special curriculum including different disciplines: science, international business, or engineering
- Opportunity to participate in Three-Day Startup pitch contests and compete for seed funding
- Participation in workshops and seminars on campus as well as social activities
- Participating freshmen students are housed together in a Trinity dorm
- Membership in Geekdom, a local business coworking space founded by Rackspace

Additional Information: The Center for Innovation & Entrepreneurship (CIE) is part of Trinity University’s entrepreneurial program and open to students in any major. In 2014, the CIE accepted 43 new students and had 90 total participants. The program has produced successful companies including Rackspace Hosting, Whole Foods Market Inc., and Denim Group. The CIE’s biggest success story is Rackspace, which is now a public company with 2014 revenues of \$1.79 billion.

Center for Innovation (CFI) at Arlington

Location: Arlington

Founded: 2001

Website: www.thecenterforinnovation.org/center-innovation

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Pro bono patent assistance
- Access to capital and talent from academia, industry, and government

Additional Information: The Center for Innovation (CFI) at Arlington, LLC was established by the Arlington Chamber of Commerce and created to bring together technology, capital, and talent to match market needs with research capabilities of industry, academia, and government. The CFI has a network of “Affiliate Partners” comprised of corporations, universities, economic development organizations, trade associations, venture funds, municipalities, and government entities throughout the U.S. and world. Its partners include BASF, IBM, L-3 Link Simulation and Training, Lockheed Martin, Raytheon, and the University of Texas at Arlington.

COASTAL BEND BUSINESS
INNOVATION CENTER

Coastal Bend Business Innovation Center (CBBIC) at Texas A&M University Corpus Christi

Location: Corpus Christi

Founded: 2009

Website: www.coastalbendinnovation.com

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Provide professional PhD level business mentoring, student internship programs, coursework modeling and interaction, educational classes, and assistance in obtaining the financial stability necessary for company growth
- Access to rental space and flexible leases, shared basic business networks, services and equipment, along with technology support service
- Provides strategic guidance, mentoring and coaching, access to investors, business mentors, and a ready-made network of contacts
- Offers help in building the management team, specialized training, affordable space, and professional services at reduced rates

Additional Information: The CBBIC is a small business incubator that nurtures the development of innovative companies. It serves as a catalyst for ideas by providing business advice for the entrepreneurial process and supporting the creation of sustainable, successful Coastal Bend businesses at every level of development. The CBBIC also plays a major role in promoting cross-disciplinary academic and entrepreneurial programs within the university.

Collide Village Accelerator Program (CVAP)

Location: Addison

Founded: 2014

Website: www.collidevillage.com

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Offers each participant an initial seed fund of \$25,000 and an optional convertible note of \$50,000, in exchange for which CVAP takes 6-10% equity in the startup companies
- A four month program which includes free office space, go-to market strategy, branding, etc., culminating in investment presentations
- Access to an exclusive network of mentors, advisors, and investors
- Services including legal advice, hosting credits, discounts from local establishments, and other valuable resources

Additional Information: The CVAP is a milestone driven seed stage startup accelerator in the Dallas suburb of Addison. CVAP's partners include the University of Texas at Dallas and the Dallas Entrepreneurs Center.

The Dallas Entrepreneur Center (DEC)

Location: Dallas

Founded: 2013

Website: <http://thedec.co/>

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Offers fee-based membership levels for coworking space, dedicated office space, and incubator assistance
- Incubator services include customizable desk and office space, 24/7 key card access, high speed Internet, conference room scheduling and basic office services, unlimited coffee and stocked fridge, access to the DEC online member platform and all DEC coordinated events, dedicated incubation programming and mentors, and financial assistance programs
- Access to experts and thought leaders from major corporations, investment groups, academic institutions, and government entities

Additional Information: The Dallas Entrepreneur Center serves entrepreneurs in the Dallas area, providing a location for training, education, mentoring, promotion, and access to capital in order to encourage and equip the entrepreneurial community to start, build, and grow their businesses.

DFW Excellerator

Location: Dallas

Founded: 2014

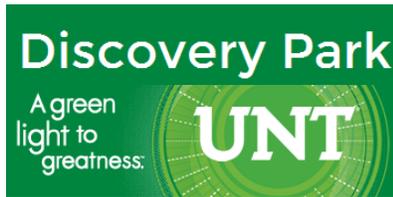

Website: www.dfwexcellerator.com/

Specialization: Multiple Industries – International Markets Focus

Services & Facilities:

- At the time this directory was updated, the Excellerator's website was in the process of being updated and offered no information about services, facilities, or programs

Additional Information: DFW Excellerator was launched by North Texas-based Chinese-American entrepreneurs to incubate startups in technology, media, and communications that are interested in international markets. Initially located in Richardson, the Excellerator is now in North Dallas.

Discovery Park Business Incubator at UNT

Location: Denton
Founded: 2009
Website: <http://discoverypark.unt.edu/incubator>
Specialization: High Tech – Multiple Industries

Services & Facilities:

- 10,000 sq. ft. incubator with low-cost office facilities, business services and high speed Internet access, shared common areas, conference and meeting rooms, and 24 hour access to a secured building
- Access to advanced science and technology research laboratories and UNT's Murphy Center for Entrepreneurship and Center for Economic Development and Research
- Provides business plan development, strategic planning, research and development assistance, product development assistance, international business assistance, IP-related assistance, a mentorship network program, and financing and funding resources

Additional Information: The University of North Texas' (UNT) Discovery Park Business Incubator is designed to accelerate the successful development of entrepreneurial companies that are seeking to commercialize locally developed technologies or to work in partnership with UNT to turn scientific innovations into businesses. Discovery Park clients include community inventors, student teams, and university researchers.

DreamIt Ventures - Austin

Location: Austin
Founded: 2013
Website: <http://dreamit.com/programs/dream-it-austin/>
Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Mentorship from leading entrepreneurs access to free legal, accounting, and administration help; and a speakers series
- Introductions to local investors and venture capitalists and an opportunity to pitch to them
- Workspace with a community of entrepreneurial peers

Additional Information: DreamIt Ventures is a pre-seed stage accelerator with the goal of helping great people with all kinds of great ideas build great companies. DreamIt was launched in Philadelphia in 2008 by successful technology entrepreneurs who wanted to create the same type of opportunities for the next wave of entrepreneurs that they were fortunate to have had. Kicking off in 2013, DreamIt Austin is open to startups from all industries.

E-Cluster at the University of Texas-Pan American (UTPA)

Location: Edinburg

Founded: N/A

Website: http://portal.utpa.edu/utpa_main/daa_home/coba_new_home/coba_departments/departments_mana/entrepreneurship_cluster

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- The E-Cluster Launch Program: identifies and develops UTPA students and recent graduates that want to start and grow businesses; participants receive advising by UTPA E-Cluster members and are introduced to the regional entrepreneurial ecosystem
- Business Plan Contest: serves as the culmination of E-Education for the UTPA academic year; student teams' business plans are judged and winners awarded prize money
- Entrepreneurship Lecture Series: outstanding entrepreneurs are tapped from regional businesses, etc.
- Club at Cimarron/UTPA Mentors Program: UTPA students are mentored by business and community leaders
- UT Horizon Fund Investment Competition: UTPA students and faculty compete for \$100,000 to launch their technology ventures

Additional Information: UTPA's Entrepreneurship Cluster (E-Cluster) operates out of UTPA's Department of Management, but accepts all potential high-impact entrepreneurial students from all UTPA academic programs.

Economic Growth Business Incubator (EGBI)

Location: Austin

Founded: 2003

Website: www.egbi.org

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Low cost incubation and office leases available for up to six months, including free business services and access to conference rooms, WiFi, and more
- Free mentoring, bilingual (Spanish) support, business consulting, and counseling
- Advice on business incorporation, business plan development, banking, marketing, etc.

Additional Information: The EGBI is a non-profit organization that assists emerging and existing businesses led primarily by historically economically disadvantaged community members of the Greater Austin area. It provides the tools to establish and grow these business through education, business plan assistance, and consulting. The EGBI has a unique approach to entrepreneurial incubation – all-inclusive training, pre-launch education, post-launch support, Spanish support, and office space.

Eden Business Incubator (COEBI)

Location: Eden

Founded: 2010

Website: www.edentexas.com/articles/view/incentives

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Offers reduced rent with flexible leases for furnished office space, Internet and computer network accessibility, free parking, and a conference/training room
- Provides just-in-time management counseling and referrals to other local business assistance providers and resources

Additional Information: The City of Eden Business Incubator (COEBI) is the only business incubator in Concho County. It is entrepreneur-centered and has strong relationships with local and area business resources to ensure the success of promising new ventures. The COEBI was created through a creative partnership with the USDA Relending Program.

Emergent Incubator

Location: Austin

Founded: 2012

Website: www.etibio.com

Specialization: Biotech – Life Science

Services & Facilities:

- 2,000 square feet of state-of-the-art wet lab space combined with office space, technology infrastructure, meeting/conference space, technology infrastructure, and IT support
- On-site team of proven experts to assist entrepreneurs with the steps of creating a laboratory, intellectual property expansion, commercialization strategy, business planning, licensing, partnering, marketing, and product development
- Free boot camps highlighting different aspects of growing startup companies

Additional Information: The Emergent Incubator, which launched in 2012, is designed to foster inventors and startup life science and technology companies by assisting with the steps of creating a laboratory, intellectual property expansion, and product development. Founded in 1989, Emergent Technologies is a life sciences venture firm which operates as an incubator, accelerator, and venture capital firm. To date, Emergent and its industry partners have invested in excess of \$500 million in technologies within its 19 portfolio companies.

The Entrepreneur Center of Central Texas (TEC-CenTex)

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Attendance and basic membership are free to entrepreneurs, talent, and mentors
- Access to the global World Entrepreneurs Networks (WEN), with both in person and virtual meetings, speakers, tutorials, and more
- Local community support, including networking, collaboration, marketing and promotion, and special events

Additional Information: The Greater Austin WEN Community, FKA the Wilco Entrepreneurs Community, is a Chamber of Commerce and Economic Development-sponsored group whose goal is to help entrepreneurs start and grow their business in the Greater Austin area. As a hands-on group assisting new and young companies grow and connect with the established companies and resources, it is open to anyone interested in starting, buying, operating, selling or growing a business.

Greater Dallas Hispanic Chamber of Commerce Incubator Program

Location: Dallas

Founded: 1994

Website: www.gdhcc.com/programs_and_resources/business_assistance_center.aspx

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Operates within Business Assistance Centers (BACs) in the City of Dallas
- Provides affordable office space and other amenities
- Provides counseling, tools and resources, training, seminars, and workshops

Additional Information: The Greater Dallas Hispanic Chamber of Commerce’s (GDHCC) Incubator Program is part of the Chamber’s Business Assistance Center (BAC) Program. The GDHCC’s Incubator Program’s objective is to promote entrepreneurship by providing neighborhood businesses services and opportunities for business ownership, economic development, and job growth. It assists startup businesses across industries that are less than two years old and run by low-to-moderate income residents of the City of Dallas.

Health Wildcatters

Location: Dallas

Founded: 2013

Website: <http://healthwildcatters.com/>

Specialization: Biotech – Life Science

Services & Facilities:

- A 12 week accelerator program runs in the fall, ending with a pitch day to investors
- Each company receives \$30,000 and may receive up to \$250,000 in follow-up funding; in exchange, participating companies provide 8% of their common founding stock
- Provides mentorship and a strong network of early stage investors in Dallas
- Addresses the specific challenges of selling into the healthcare market, dealing with regulatory constraints, and the slower pace of adoption

Additional Information: Health Wildcatters is a mentor-driven healthcare accelerator focused on a wide variety of early stage healthcare startups. The accelerator welcomes companies focused on digital health and health IT, as well as the more traditional medical devices, diagnostics, and pharmaceuticals. Health Wildcatters is a program based on Dallas-based Tech Wildcatters, which was founded in 2009.

Houston Arts Alliance (HAA)

Location: Houston

Founded: 1993

Website: www.houstonartsalliance.com

Specialization: Artists and Arts Organizations

Services & Facilities:

- The 3 year Resident Incubator program builds organizational capacity for small/emerging organizations (with program budgets between \$50,000 and \$200,000) through management services, incubator residency, and capacity funding (of up to \$15,000 per year); selected organizations receive in-depth training, diagnostics, planning, and resources
- The Accelerator program strategically advances organizations from growth to maturity by investing in critical infrastructure; specifically, the program invests between \$10,000 - \$20,000 in growth organizations (total revenues of \$100,000 to \$750,000) through the creation of board adopted strategic plans and funding for strategic plan implementation

Additional Information: Houston Arts Alliance (HAA) is a 501(c)3 non-profit arts organization that exists to enhance the quality of life and tourism in the Houston region by supporting and promoting the arts through programs, initiatives and alliances. HAA distributes over \$3 million in grants to approximately 220 non-profit arts organizations and individual artists. In addition, HAA manages the city's civic art collection of 450 artworks, as well as new acquisitions. The HAA offers both an Accelerator program and a Resident Incubator program.

Houston Technology Center (HTC)

Location: Houston

Founded: 1999

Websites: <http://houstontech.org> & <http://houstontech.org/jsc-campus/>

Specialization: High Tech – Multiple Industries

Services & Facilities:

- 50,000 sq. ft. state-of-the-art facility located in the heart of midtown Houston
- Exposure to capital and an extensive network of sector-specific mentors who guide clients towards commercialization
- Offers incubator and accelerator programs

Additional Information: Houston Technology Center (HTC) indicates it is the largest technology business incubator and accelerator in Texas, advancing the commercialization of emerging technology companies in the greater Houston area. Supported by more than 300 of Houston's leading corporations and academic institutions, as well as the Greater Houston Partnership, Texas Medical Center, NASA-Johnson Space Center, and the City of Houston, the HTC has become Houston's center of technology entrepreneurship by assisting companies within several key sectors: energy, information technology, life sciences, nanotechnology, and NASA-related technologies. The HTC serves as the Gulf Coast Regional Center of Innovation and Commercialization (RCIC). It also operates a satellite facility at the Johnson Space Center to harness the facility's technical know-how and provide business advice, incubation, and acceleration services.

The Hub of Human Innovation

Location: El Paso

Founded: 2011

Website: <http://hubofhumaninnovation.org>

Specialization: High Tech & Clean Energy – Service-Based Focus

Services & Facilities:

- Affordable office space rentals, including 24/7 secured access, business services, VOIP phone/Internet access, meeting space, a break room, a resource library, utilities and janitorial services, and a conference room
- One-on-one business support, mentoring, business analysis and plan assessment, management team and board development, investment capital/financing opportunities, business development tools/resources/contacts, seminars/workshops/conferences, and an intern pool to work on approved special client projects
- Offers programs for clean energy partners, manufacturing partners, and more
- Offers a clean energy incubator program called the Paseo del Norte Clean Energy Incubator Program (PDN CEI), in partnership with the University of Texas at El Paso and funded through the Texas State Energy Conservation Office

Additional Information: The Hub of Human Innovation (The Hub) is a technology incubator that nurtures the development of small high technology and clean energy-based businesses in the El Paso/Paseo del Norte region. The Hub's regional goals are to increase jobs, grow and retain companies, accelerate growth in core industries, and enhance the entrepreneurial climate.

The Huntsville Area Technology and Business Complex (HA/tch)

Location: Huntsville

Founded: 2013

Website: www.hatchbusiness.com/

Specialization: High Tech – Service-Based Focus

Services & Facilities:

- Offers 24/7 secured access to the facility, professional building management, centralized professional administrative services, state-of-the-art conference and training rooms, Ethernet and wireless Internet, and more
- Assistance with product or service launch, coaching, mentors, and access to business planning, financial, and legal applications

Additional Information: The Huntsville Area Technology and Business Complex (HA/tch), an affiliate of Sam Houston State University (SHSU), is the Central East Texas Region's premier business startup and entrepreneurial assistance program for high technology companies. At HA/tch, budding entrepreneurs can commercialize their innovative ideas, start new companies, and acquire the business skills and knowledge necessary for success in the marketplace.

IBM PartnerWorld - Austin & Dallas

Locations: Austin and Dallas

Founded: N/A

Website: www.ibm.com/partnerworld

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Offers online, remote, and face-to-face training, marketing, technical, and other assistance
- Exclusive local networking and mentoring events, free software, and technical support
- Collaborates with IBM and other Business Partners through its worldwide centers

Additional Information: Housed at IBM Innovation Centers in Austin and Dallas, the IBM PartnerWorld program helps entrepreneurs build, market, and sell high tech solutions. Entrepreneurs can use IBM's centers to port and test solutions, close deals with clients, and collaborate with IBM, business partners, academic leaders, IT professionals, and entrepreneurs. IBM Partnerworld is a global program available to registered participants and across many industries, including banking, consumer products, insurance, energy, healthcare, life sciences, retail, and transportation. One notable area IBM's Dallas Center focuses on is telecommunications, given its proximity to Richardson's Telecom Corridor.

Idea Finishing School (IFS)

Location: San Antonio

Founded: 2009

Website: www.ideafinishingschool.com

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Office space and furniture; network connectivity; and legal, accounting, and banking services
- 3-6 month development programs including company technology reviews, working up business and marketing plans, and investor presentations
- Legal, accounting, marketing, and funding assistance
- Access to assistance from in-house accredited investors and advisors

Additional Information: The Idea Finishing School (IFS), located in the San Antonio Technology Center, is a Texas corporation made up of a unique combination of collaborators and investors, and functions primarily as a business accelerator. The IFS team of accredited investors also acts on the School's Advisory Board. The IFS provides assistance to startups across technology-focused industries in exchange for company equity.

IDEA Works FW (Fort Worth)

Location: Fort Worth
Founded: 2014
Website: <http://ideaworksfw.org/>
Specialization: High Tech – Multiple Industries

Services & Facilities:

- Offers fee-based memberships for incubation, coworking, and affiliates
- Offers dedicated office space, shared facilities including a conference room and event room, high speed internet, copying services, and storage for incubator members
- Services include coaching, mentoring, an advisory council, and monthly Entrepreneur Roundtables
- Provides access to other entrepreneurs, capital, talent, and information
- Prior to graduating out of the incubator program, a professional transition team provides business assistance regarding real estate, IT, furniture, etc.

Additional Information: IDEA Works FW is a public-private partnership between the City of Fort Worth and the BAC Education Foundation. It is managed and funded by the foundation and housed in the same building complex as the Fort Worth Business Assistance Center and TECH Fort Worth. IDEA Works offers fee-based memberships for incubation.

InCube Labs - San Antonio

Location: San Antonio
Founded: 2010
Website: www.incubelabs.com
Specialization: Biotech – Medical Devices and Pharmaceuticals

Services & Facilities:

- 20,000 sq. ft. facility includes wet labs, a machine shop, and two Class 100 clean rooms
- Capabilities include electronics, mechanical engineering, material science, software/firmware, embedded systems, cell biology, pharmacology, physiology, protein and polymer chemistry, tissue engineering and regenerative medicine, implantable devices, remote patient monitoring, as well as clinical development and manufacturing
- InCube Labs' venture fund, InCube Ventures, has a diversified portfolio of early, mid, and late-stage life sciences companies

Additional Information: With operations in San Jose, California and San Antonio, Texas, InCube Labs LLC is a life sciences research lab focused on developing medical breakthroughs that dramatically improve patient outcomes. The company collaborates with universities and entrepreneurs in Texas and around the country to help identify promising innovations and bring them to market. In 2010, InCube Labs received \$9.2 million through the Texas Emerging Technology Fund and moved three of its most promising startups from California to Texas: Fe3 Medical Inc., Corhythm Inc., and Neurolink Inc. In May 2013, InCube Labs launched two new life sciences companies in San Antonio - Theracle and iBridge Medical - to join the existing three companies.

Innovation Greenhouse at the University of North Texas (UNT)

Location: Denton
Founded: 2013
Website: <http://innovation.unt.edu>
Specialization: High Tech – Multiple Industries

Services & Facilities:

- Programs and training from entrepreneurs, investors, and community leaders; support from UNT facility and access to UNT resources
- An annual Sherman/Barsanti Inspiration Awards Competition recognizes students with an innovative and original project, invention, and musical or literary composition or artwork

Additional Information: UNT's Innovation Greenhouse is a resource to help university students bring ideas to life, apply what they learn in the classroom, and use knowledge gained through hands-on experience to succeed in the rapidly growing innovation field. UNT's long-term goal is to have a separate building for Innovation Greenhouse.

Innovation Underground (IU)

Location: Bryan
Founded: 2011
Website: <http://iu.adventgx.com/>
Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Services include assistance with business formation and planning, financial modeling, mentoring, strategy development, marketing and creative services, fundraising and technical support, business training and tools, personal and professional development, and the resources of a strong network to grow local businesses
- Offers networking events

Additional Information: Innovation Underground (IU), operated by Advent GX, is a privately-owned business incubator located in historic downtown Bryan, Texas. Advent GX, a private company located at the Texas A&M University Research Park in College Station, started IU to lend support for local, community-based economic development and historic preservation while encouraging entrepreneurship and innovation and to meet the need for business incubation at the community level by engaging experienced entrepreneurs in the process of supporting new startups.

Jon Brumley Texas Venture Labs (TVL) Accelerator at UT Austin

Location: Austin

Founded: 2010

Website: www.mcombs.utexas.edu/Centers/Texas-Venture-Labs.aspx

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Access to 250+ hours of graduate time and the TVL Alumni Network of successful entrepreneurs and former students
- Provides assistance in market validation, business model assessment, financial analysis, funding guidance, and competitive analysis
- The opportunity to present at UT Austin’s semi-annual Venture Expo, a showcase for “investor ready” startups

Additional Information: Jon Brumley Texas Venture Labs (TVL) Accelerator at UT Austin works primarily with startup companies that are based in Austin or affiliated with the UT System and is focused on life sciences and other technology and mobile industries. TVL is also home to the International Venture Labs Investment Competition (formerly Moot Corp), which has been dubbed the “Super Bowl of Investment Competitions.” Since 2010, the TVL has worked with over 100 startups and over 200 UT Austin graduate students. TVL companies have raised over \$280 million.

Kitchen Incubator

Location: Houston

Founded: 2007

Websites: <http://kitchenincubator.com>

Specialization: Food and Beverage Industry

Services & Facilities:

- Fully-equipped commercial kitchens in a downtown Houston facility
- Comprehensive advisory and business development services, food business bootcamps, project launch guidance, feasibility studies, business planning, and financial projects
- Assistance with certification processes, forms, and contacts
- Mentoring, networking, and promotional events

Additional Information: Kitchen Incubator (KI) offers a full suite of business advisory services for the culinary startups. Its goal is to increase entrepreneurial success in the culinary industry, along with access to facilities and equipment in a coworking environment conducive to collaboration, networking, and mentorship. KI has helped launch dozens of concepts in food businesses and now co-houses another incubator, The Brewery Incubator.

Knowledge for Success (KFS)

Location: Fort Worth

Founded: 2010

Website: <http://knowledgeforsuccess.org/>

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Specializes in Business Startup, Marketing, Small Business Development, Business Plans, Networking, Entrepreneurs, Home Based Businesses, and Social Media
- KFS' core 10 week business program, *New Quest*, provides startups and recent small business owners hands-on training in everything from market research, legal resources, to financing; one-on-one counseling; startup funding; and more

Additional Information: Knowledge for Success (KFS) is a non-profit organization that specializes in small business development, with a focus on small business startups and women entrepreneurs. KFS is owned and run by Toni Allison, an award-winning self-made woman and entrepreneur who has launched and run successful businesses in the hospitality and retail services and in the health industry.

LAUNCH Innovative Business Accelerator (IBA) at Baylor University

Location: Waco

Founded: 2013

Website: www.baylor.edu/launch/

Specialization: High Tech – Multiple Industries

Services & Facilities:

- A variety of tools to speed a new product or business through the commercialization pipeline
- Company and entrepreneur coaching, networking and mentoring opportunities, funding assistance, and business experts
- Offers accelerated Commercialization Program and global market development programs

Additional Information: The LAUNCH Innovative Business Accelerator is housed in the 330,000 sq. ft. Baylor Research and Innovation Collaborative (BRIC). Its goal is to help startups and established technology companies grow their business more rapidly by taking advantage of the University's research and academic intellectual capital and its economic development partners in McLennan County.

Longhorn Startup Lab (LSL at the University of Texas at Austin)

LONGHORNSTARTUP

Location: Austin

Founded: N/A

Website: www.1semesterstartup.com

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- LSL provides support to UT Austin student and professor-led ideas and fosters student startups through a semester-long class and an on-campus lab, culminating in a demo day
- Provides successful entrepreneurs as mentors

Additional Information: Longhorn Startup Lab (LSL) is a collaboration of UT Austin’s Professor of Innovation, Bob Metcalfe, and Austin-based Capital Factory co-founder, Josh Baer. LSL provides support to UT Austin student and professor-led ideas and fosters student startups through a semester-long class and an on-campus lab.

The McA2 Creative Incubator (McA2) in McAllen

Location: McAllen

Founded: 2004

Websites: www.mcallenart.com

Specialization: Artists and Arts Organizations

Services & Facilities:

- Low cost studios, managerial advice, as well as legal and technical support to qualified artisans with qualified projects
- Training is provided, including business basics for entrepreneurs, financial reporting, marketing, and legal issues
- Space for exhibitions, screenings, and performances

Additional Information: The McAllen Chamber of Commerce’s McA2 Creative Incubator (McA2) provides support and a home for local artists throughout the Rio Grande Valley. MCA2, with the support of the McAllen Chamber of Commerce, is uniquely positioned to actively connect the creative sector with the art, business, and creative communities. A thriving creative sector, including arts, culture and for-profit creative businesses, contributes to the economic prosperity and quality of life of McAllen and the Rio Grande Valley.

Medical Innovation Labs

Location: Austin

Founded: 2014

Website: www.medicalinnovationlabs.com/

Specialization: Biotech – Medical Devices

Services & Facilities:

- Collaboration with a group of visionaries, including entrepreneurs, researchers, clinicians, and students
- Offers a speaker series
- Offers strategy and direction on regulatory and legal issues
- The Labs team includes two seasoned medical device industry veterans

Additional Information: Medical Innovation Labs was founded and is led by CEO Dr. Michael Patton, who founded Patton Surgical Corp., then sold it to Stryker Corp. in 2012. The incubator was created to work with the Dell Medical School, which is under construction, and currently operates virtually. The lab's goal is to provide the resources to accelerate medical devices' proof-of-concept through rapid prototyping, reduce the time to market, and ensure near-term impact on patient care.

MentorVault at The Garage

Location: Dallas

Founded: N/A

Website: <http://workthegarage.com/>

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- MentorVault is an annual 90 day bootcamp for startups
- The bootcamp's primary focus is on product development, sales, and revenues; not investor pitching
- Mentors are available and committed to 18 months of work with a startup, not just 90 days

Additional Information: MentorVault is an internal Business Accelerator located within The Garage, a coworking space. The Garage assists all types of companies across industries, offering different membership levels which may include 24/7 access; email, phone, and vmail services; conference room access; free high speed Internet with Wi-Fi; business office services; free tea and coffee; business-related and networking presentations and events; etc. The Garage also offers events and activities, ranging from group emails and community lunches to monthly meetings with mentors and industry experts.

Microsoft Technology Center (MTC): Dallas & Houston

Location: Irving (Dallas) & Houston

Founded: N/A

Website: www.microsoft.com/en-us/mtc/default.aspx

Specialization: High Tech – Multiple Industries

Services & Facilities:

- The MTCs include a spectrum of purpose built environments to ensure world class learning and development experiences
- The MTCs have alliances with industry leaders to provide comprehensive resources, including hardware, software, and services, for the duration of a team’s engagement
- MTC staffers are experts in Microsoft technology solutions, work side by side with a team to rapidly find solutions to technology challenges, and their expertise and in-depth knowledge of Microsoft products and technologies ensure that entrepreneurs benefit from development best practices

Additional Information: Microsoft Technology Centers (MTCs) are collaborative environments that provide access to innovative technologies and world-class expertise, enabling participants to envision, design, and deploy solutions to meet their exact needs. MTCs focus on business needs, including application platform and business productivity optimization, cloud services, mobility, unified communications, and virtualization.

Midland Hispanic Chamber of Commerce (MHCC) Business Incubator

Location: Midland

Founded: 2002

Website: www.midlandhcc.com

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- The MHCC provides early stage or home-based businesses a support net where they can nurture and grow their businesses

Additional Information: The Midland Hispanic Chamber of Commerce (MHCC) Business Incubator is one of the few non-profit in-house incubator programs in Texas and indicates it is the only one in the West Texas area.

MIT Enterprise Forum (MITEF) of Texas

Location: Houston

Founded: 1984

Website: www.miteftexas.org

Specialization: High Tech – Service-Based Focus

Services & Facilities:

- Offers 7 Flagship Programs, 7 New Venture Clinics, and 3 Networking Socials annually
- MITEF members are leaders in their industries who dedicate their time and talent to support the Houston community with world-class Flagship Programs, to support entrepreneurs, and to create great networking opportunities

Additional Information: The MIT Enterprise Forum of Texas (MITEF) is a non-profit organization affiliated with the Massachusetts Institute of Technology (MIT) and MIT Technology Review Magazine and is one of 27 world-wide chapters. The MITEF of Texas' goal is to promote technology entrepreneurship in the Houston community by producing world-class educational and networking programs.

Mountain View College (MVC) Business Incubator Program

Location: Dallas

Founded: 2009

Website: www.mountainviewcollege.edu/business/econdev/Pages/businessincubator.aspx

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Offers individual offices, meeting/conference space, a computer lab, training classrooms, 24/7 security access and video surveillance, high speed Internet and telephone facilities, and ample nearby parking
- Rents 200-400 sq. ft. offices at \$250-\$450/month
- Access to Credit Courses and Continuation Education Training

Additional Information: The Mountain View College (MVC) Business Incubator Program (BIP) is overseen by the MVC's Economic and Workforce Development Department and provides service and support to new and developing businesses within the southern sector of Dallas County. As the only Dallas County Community College District business incubator south of the Trinity River, the MVC BIP's goal is to assist small business entrepreneurs in becoming healthy contributors to the economy and employment base of the community.

Napkin Venture

Location: Austin

Specialization: Biotech – Health IT

Services & Facilities:

■ 8 week program is held at the University of Houston's (UH) new Innovation Center, offering need-specific mentors and other amenities, culminating in pitch and investment days

■ Participating startups receive \$30,000 from Houston Health Ventures, \$24,000 worth of services from cloud services provider, Rackspace, plus office space and amenities from UH

Additional Information: NextHIT, created by the University of Houston and Houston Health Ventures (HHV), is an accelerator program focused on health IT startups. HHV is a health care investment fund focused on health IT, medical devices, and diagnostics.

North Texas Enterprise Center for Technology (NTEC)

Location: Frisco

Founded: 2003

Website: www.ntec-inc.org

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Fee-based access to furnished offices, staffed reception, meeting rooms, kitchens, break rooms, printer center, business and janitorial services, 24/7 secured key access, video surveillance, ample parking, and more
- Offers a customized 90-day plan designed to address applicants needs and challenges; advice and support regarding business management, business plan development, operations, regulatory issues, funding, staffing, and more
- Access to reduced rate business services by pre-screened service providers
- Access to NTEC's Board of Directors, Advisors, and the Frisco Economic Development Corporation (EDC)

Additional Information: The North Texas Enterprise Center for Technology (NTEC) specializes in assisting startups in emerging technologies and provides a comprehensive suite of facilities and services to accelerate companies' market entry and to attract investment capital. The NTEC business accelerator is one of the largest in Texas and supports a range of industries, from healthcare to legal services.

NSBRI Industry Forum

Location: Houston

Founded: N/A

Website: www.nsbriforum.org

Specialization: Biotech – Space Biomedical

Services & Facilities:

- Offers seed-stage opportunities and funding through SMARTCAP (Space Medical & Related Technologies Commercialization Assistance Program)
- Access to scientific and technology commercialization-related NSBRI workshops, seminars, and other events
- Provides market analysis reporting to NSBRI-funded investigators, match-making with potential partners, and funding for proof-of-concept studies to bring the technologies to a point where they can attract investors

Additional Information: The NSBRI (National Space Biomedical Research Institute) Industry Forum is a non-profit organization affiliated with the NSBRI. NSBRI, established by NASA in 1997, consists of over 70 agencies, universities, and institutions led by the Baylor College of Medicine, with a mission to develop health-related solutions to support long-duration human space exploration. The NSBRI Industry Forum's goal is to commercialize private sector biomedical and NSBRI-funded technology.

OwlSpark at Rice University

Location: Houston

Founded: 2013

Website: <http://owlspace.com>

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Features a 90-day summer accelerator experience for up to ten startup teams
- Provides a robust curriculum, collaborative coworking space, a monthly living stipend, and relevant industry mentorship
- At the end of the three months, OwlSpark hosts a showcase event with successful entrepreneurs, business leaders, mentors, and investors in attendance

Additional Information: OwlSpark is an accelerator program founded by Rice University students to ignite entrepreneurship at Rice University by providing Rice-affiliated startup teams with the resources, funding, and space required to launch companies and commercialize technologies. The program focuses on Rice students, staff, and recent alumni who are trying to start a business.

Rapid Response Manufacturing Center (RRMC) at UTPA

Location: Edinburg

Founded: 2008

Website: http://portal.utpa.edu/utpa_main/daa_home/cose_home/rrmc_home

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Training and implementation of advanced manufacturing tools such as Lean Manufacturing, Six Sigma, Quality Systems and Logistics Management; programs are customized to the needs of the customer
- Development of customized innovation processes to quickly take ideas from inception to commercialization
- Offers rapid prototype development and technical issues analysis

Additional Information: The Rapid Response Manufacturing Center (RRMC) at the University of Texas-Pan American (UTPA) integrates technologies, management, and systems that significantly improve the speed to market of new and refreshed products, speed in response to customer needs, and demand for customized products at mass produced prices and quick delivery time. The RRMC's goal is to help establish South Texas as a major North American manufacturing hub by providing advance manufacturing technologies, processes and tools, and a skilled labor force to rapidly commercialize new products/processes and drive world class operational excellence and sustained growth.

RED Labs at the University of Houston (UH)

Location: Houston

Founded: 2013

Website: <http://redlabs.bauer.uh.edu/>

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Provides space on UH campus; access to mentors and resources in the startup community; and assistance with idea validation, business modeling, and product building
- 12 week program ending with the Bayou Startup Showcase, hosted jointly with Rice University's OwlSpark accelerator, with investors and startup community members in attendance
- Access-controlled campus coworking space includes unlimited coffee and ramen, 3D printer, and more

Additional Information: RED Labs is a coworking space and technology startups accelerator at the University of Houston's (UH) Bauer College of Business. At least one member of applicant startup teams must be an actively enrolled UH graduate or undergraduate student. The accelerator accepts up to 10 companies each summer and has launched 11 companies since 2013. RED Labs does not offer startup funding or equity sharing.

Research Valley Innovation Center (RVIC)

Location: Bryan/College Station

Founded: 2007

Website: www.rvic.org

Specialization: Biotech – Life Science

Services & Facilities:

- Marketing, business strategy, and intellectual property assistance; SBIR and pre-incubation guidance; management team coaching; and team development and mentoring
- Investment networking and support, including the Aggie Angel Network, SBIR/STTR, and other venture funding sources
- Office and wet lab space leasing and hoteling, online project management system, and online market research
- RVIC's BioCenter program focuses on human and animal health, therapeutics, diagnostics, medical devices, bioinformatics, data analytics, and research technology

Additional Information: Research Valley Innovation Center (RVIC) is a non-profit corporation formed by the Research Valley Partnership for the advancement of science, education, entrepreneurship, and innovation in the Research Valley of Texas. It is located at the Texas A&M Institute for Preclinical Studies (TIPS) in the Research Valley's One Health Plus Biocorridor. The RVIC's mission is to harness regional (community-university) and state innovation ecosystem resources to provide education, training advisory services, operational guidance, and infrastructure support to its member companies, thus creating jobs and business opportunities for the region.

REVTECH (FKA VentureSpur Dallas)

Location: Dallas
Founded: 2011
Website: www.revtechaccelerator.com
Specialization: High Tech – Retail Industry

Services & Facilities:

- Offers a 16 week accelerator program including free office space, a range of free or discounted services, experienced mentors, workshops, and pitch practices, culminating in a Pitch Day.
- Provides participating startups a seed investment of \$40,000, while accepting 6% of the startup's equity in the form of founders' shares.

Additional Information: In early 2014, REVTECH relocated to Dallas, rebranded, and refocused exclusively on new technologies in the retail industry. Dallas was selected because it has the largest concentration of national restaurant and retail chain headquarters in the U.S. REVTECH assists startups that are developing innovative products or services in the retail marketplace. REVTECH lists six startups for its debut 2014 retail-focused class. Previously, REVTECH was a general high tech accelerator.

Rice Alliance for Technology and Entrepreneurship

Location: Houston
Founded: 2000
Website: www.alliance.rice.edu
Specialization: High Tech – Multiple Industries

Services & Facilities:

- Rice Alliance Technology Venture Forum programs and Rice Alliance Digest Newsletter
- Rice University Business Plan Competition, the world's richest and largest, which provides the opportunity for promising entrepreneurs to obtain funding, mentoring, and advice

Additional Information: The Rice Alliance for Technology and Entrepreneurship (Rice Alliance) is Rice University's nationally-recognized initiative devoted to the support of technology commercialization, entrepreneurship education, and the launch of technology companies. It was formed as a strategic alliance of three schools: the George R. Brown School of Engineering, the Wiess School of Natural Sciences, and the Jesse H. Jones Graduate School of Business, in collaboration with the Vice Provost and the Office of Research. Its mission is to support the creation of technology-based companies and the commercialization of new technologies in the Houston community and the Southwest.

Rice Launch at Rice University

Location: Houston

Founded: 2010

Website: <http://rce1.rice.edu/ricelaunch>

Specialization: High Tech – Multiple Industries

Services & Facilities:

■ Offers three categories: Venture Series: to learn about becoming an entrepreneur by attending workshops and brainstorming with students and mentors to develop a business from the ground up; Competition Series: startup company teams are formed, compete, and are judged while later stage companies can pitch to potential investors; and Exhibition Series: participants' products and services are displayed to potential investors and others

Additional Information: Rice Launch's mission is to connect, energize, and enable Rice undergraduates, graduates, and MBAs to initiate and capably pursue their own entrepreneurial ventures. The organization is the result of the merging of three separate entrepreneurial groups on campus: OwlSquad, Rice Business Collaborative-Entrepreneurship, and Rice Sprout.

Roadrunner Incubator at UTSA

Location: San Antonio

Founded: 2007

Website: http://business.utsa.edu/cite/cite_rrincubator.aspx

Specialization: High Tech – Multiple Industries

Services & Facilities:

■ Industry Partnership Program with UTSA researchers, core facilities, specialized equipment, and labs
 ■ Access to UTSA IP and joint commercialization efforts
 ■ Strategic business plans from UTSA's Management of Technology and MBA students
 ■ Mentoring and training programs, Entrepreneur Boot Camp, office and lab space, market research assistance, and advice about/access to private and government funding resources

Additional Information: The Roadrunner Incubator, located at UT at San Antonio's (UTSA)'s Center for Innovation and Technology Entrepreneurship (CITE), is an incubator for early-stage UTSA student companies. The incubator hosts and nurtures new UTSA technology ventures while connecting them to the broader San Antonio Entrepreneurial Ecosystem. Successful new companies launched in the Incubator will quickly transition out into the broader technology-based regional business ecosystem.

San Antonio Clean Energy Incubator (SACEI)

Location: San Antonio

Founded: 2011

Website: <http://texasenergy.utsa.edu/research/san-antonio-clean-energy-incubator>

Specialization: Energy-Related Technology

Services & Facilities:

- Business planning and mentoring, support in conducting business and research, and fundraising assistance
- Access to lab and office facilities, capital sources including investors and government, and business development opportunities
- Experienced staff and extensive networking with private and public partners and business leaders

Additional Information: The San Antonio Clean Energy Incubator (SACEI) is a collaborative partnership between UTSA's Texas Sustainable Energy Research Institute (TSERI), the Texas State Energy Conservation Office, UTSA's Institute for Economic Development, the San Antonio Clean Tech Forum, the Mission Verde Alliance, and UT's Austin Technology Incubator. SACEI's mission is to develop new companies and foster new business activity related to clean technology in San Antonio in ways that can be expanded to Texas, the nation, and the world, in order to promote socioeconomic prosperity.

Seed Sumo

Location: Bryan/College Station

Founded: 2014

Website: www.seedsumo.com

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Offers a three month program beginning each spring including free hosting, world-class branding services, finance/legal counseling, a great place to work, intensive top-notch mentoring, and an extensive network of connections
- Programs culminate in a demo day with a large investor audience
- Selected companies receive \$50,000 in seed funding in exchange for around 10% equity
- Perks include some free or discounted services, scholarships, and credits from companies including SoftLayer, Google, Microsoft Bizpark, PayPal, Rackspace, Facebook, SurveyMonkey, and Adobe.

Additional Information: Seed Sumo is a mentorship-driven accelerator and member of the Global Accelerator Network, located near Texas A&M's main campus, that assists young entrepreneurs turn early-stage startups into successful businesses.

Shell GameChanger

Location: Houston and elsewhere

Founded: 1996

Website: www.shell.com/global/future-energy/innovation/innovate-with-shell/shell-gamechanger.html#vanity-aHR0cDovL3d3dy5zaGVsbC5jb20vZ2FtZWNoYW5nZXI

Specialization: Energy-Related Technology

Services & Facilities:

- A team of Shell professionals review proposals and those selected receive funding, often over several years
- Funded applicants work with Shell professionals to develop strategies and monitor progress
- If proof-of-concept is reached, IP may be externally licensed, funneled into Shell's internal R&D pipeline, or a new company may be set up

Additional Information: The Shell GameChanger program identifies and nurtures unproven ideas that have the potential to drastically impact the future of energy. Shell, a multinational energy company headquartered in the Netherlands, is looking for early-stage innovations related to what it calls “extreme recovery” energy, or where it’s hard-to-reach, and future energy technology to aid in processes like storage and transportation of energy. To date, GameChanger has worked with over 1,700 innovators and turned more than 100 ideas into reality.

Silsbee EDC (SEDC) Business Incubator Program

Location: Silsbee

Founded: 2007

Website: www.silsbeeedc.com/incubator.html

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Low cost leases on professional office space, including access to Internet services, a conference table, office equipment, and a kitchen
- Access to business consultants with accounting, business plan preparation, and legal backgrounds
- Network connections for business expansion, retention, and financing
- Mentoring and support from the local SBA and network connections for business expansion, retention, and financing

Additional Information: The Silsbee Economic Development Corporation (SEDC) Business Incubator Program was the first business incubator in Hardin County. The incubator’s success stories include supporting the expansion efforts of the Christian Women Job Corps and a Farmers Insurance agent. Both businesses benefited from access to business consultants and mentoring offered through the SEDC Business Incubator Program.

SKU (FKA Incubation Station)

Location: Austin

Founded: 2011

Website: www.sku.is

Specialization: Consumer products – Service-Based Focus

Services & Facilities:

- SKU's team, mentors, and partners work with selected Consumer Packaged Goods (CPG) startups on every aspect of their businesses
- Provides wraparound infrastructure of seasoned entrepreneurial mentors, customized educational content, advanced operations support, and privileged access to funding
- Companies admitted into the SKU program receive \$12,000 from SKU and up to \$200,000 in convertible notes from SKU mentors, as well as other attractive perks and exclusive deals, in exchange for equity stakes

Additional Information: SKU (FKA Incubation Station) is a startup accelerator program specially designed for early-stage consumer product companies. SKU is a retail industry acronym that stands for Stock Keeping Unit.

STAR Park at Texas State University

Location: San Marcos

Founded: 2010

Website: www.txstate.edu/ocir/STAR-Park.html

Specialization: High Tech – Multiple Industries

Services & Facilities:

- 20,000 sq. ft. building including wet labs, instrumentation lab, office space, and a conference room
- Mentoring and access to capital equipment

Additional Information: The Texas State University (Texas State)-San Marcos STAR (Science, Technology, and Advanced Research) Park is a 38-acre site which hosts Texas State's first building, STAR One, dedicated to the university's research and commercialization efforts. Officially opening in November 2012, STAR One serves as a technology accelerator for startup and early-stage businesses. The facility is particularly focused on the development of spin-offs from research conducted and IP generated by Texas State faculty and spin-ins from companies outside the state that want to strategically work with the university.

Startup Aggieland at Texas A&M University

Location: College Station

Founded: 2013

Website: <http://startupaggieland.tamu.edu/>

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Offers free guidance, training, business resources, networking events, and 24-7 access to office and coworking space, coffee, and web hosting
- Mentoring provided by Texas A&M University (TAMU) faculty/researchers and alumni, experienced entrepreneurs, and business leaders
- Assistance from the Brazos Valley Small Business Development Center, the local Chamber of Commerce, Aggie Angel Network, and the TEEX Product Development Center
- Instruction and assistance in multiple disciplines, including finance, marketing, and engineering

Additional Information: Startup Aggieland, located at TAMU Research Park II, is a student business incubator, accelerator, and coworking space that helps all TAMU students of any area of study with their entrepreneurial endeavors. TAMU does not take equity stakes in student startups, making students' IP theirs to keep if developed at the accelerator.

Startup Weekend

Location: Austin, Dallas, Houston

Founded: N/A

Website: <http://startupweekend.org/>

Specialization: Multiple Industries – Service-Based Focus

Services & Facilities:

- Over a weekend, participating teams pitch their business ideas, then selected teams receive advice from professional mentors, build proof-of-concept or even products, and present/demo on the last day before judges
- Professional mentors and coaches are provided
- Sponsors include local and national businesses and educational institutions

Additional Information: Startup Weekend is a non-profit organization that holds events to jumpstart entrepreneurship in cities across the nation and world. The organization's revenues come primarily from global and regional sponsors and grants, led by The Kauffman Foundation. Registered participants attend scheduled 54 hour weekend events that are part meet-up, part entrepreneurial education, part demo day, and for some, the start of a new viable business. All types of businesses are welcome, although roughly 50% are technical (developers, coders, designers) and 50% are business-related (marketing, finance, law). Business teams are encouraged; however, sole entrepreneurs can register for limited participation.

SURGE Accelerator

Location: Houston

Founded: 2011

Website: www.surgeaccelerator.com

Specialization: Energy-Related Technology

Services & Facilities:

- Offers \$30,000 in seed funding in exchange for 8% in common equity, and may receive additional funding from investors
- Provides a four month program including \$100,000 in cloud hosting credits, office space, business and sales assistance, legal and financial advice, experienced mentors and entrepreneurs, and more

Additional Information: SURGE validates companies innovating and exploiting the massive shifts in technology, policy, and expertise in the energy industry. Its location in Houston, “The Energy Capital of the World,” ensures that SURGE participants have access to investors, entrepreneurs, customers, suppliers, and executives from many of the world's largest and technology savvy energy companies.

SXSW Accelerator

Location: Austin

Founded: 2009

Website: <http://sxsw.com/interactive/accelerator>

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Annual showcase designed to connect companies with web-based innovations to industry experts, early adapters, and representatives from the global venture capital community
- Industry connections at SXSW Interactive, a major conference and networking event

Additional Information: The SXSW Accelerator event takes place during the annual SXSW Interactive Festival every March. To participate in the pitch competition, the startups selected from the U.S. and around the world must have products or services in specified categories, which include Enterprise and Big Data Technologies; Entertainment and Content Technologies (music, gaming, publishing, film, television, etc.); Health Technologies; Social Technologies; Wearable Technologies; and Innovative World Technologies.

T3D3 Business Accelerator

Location: San Antonio

Founded: 2009

Website: <http://t3dc.org/t3dc/accelerator/t3dc-accelerator-description-and-location>

Specialization: High Tech – Multiple Industries

Services & Facilities:

- 4,000 sq. ft. facility that includes laboratories, a conference room, offices, and cubicles
- Access to capital, strategic business planning, venture development assistance, seminars, and coaching; business services such as marketing research, business accounting, legal, and personnel recruitment; laboratory, engineering, other technical assets; and the San Antonio entrepreneurial community

Additional Information: The T3D3 Business Accelerator is located at the Texas Technology Development Center (T3D3). T3DC provides startup support to new bioscience and technology ventures and offers entrepreneurs an environment to fast-track their venture to market. T3D3 has many San Antonio partners, including area universities and colleges, local governments and EDCs, BioMed SA, the Texas Research & Technology Foundation, and Texas Biomedical Research Institute.

TECH Fort Worth

Location: Fort Worth

Founded: 1998

Website: <http://techfortworth.org>

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Assists university researchers, inventors, and early stage companies attain community visibility, create a business infrastructure, develop a management team, recruit external advisors, access funding, and obtain lease space of one of TECH Fort Worth's facilities

The YDSP, also known as the Tigua Pueblo or Tribe, is a U.S. federally recognized Native American tribe and sovereign nation. The Tribe has over 1,600 citizens enrolled and a significant presence in the El Paso region.

Tyler Area Business Incubator (TABI)

Location: Tyler

Founded: 1999

Website: www.tjc.edu/continuingstudies/businessIncubator

Specialization: High Tech – Service-Based Focus

Services & Facilities:

- Access to technical training at the Tyler Junior College West Campus, where the incubator is located
- Support from the Small Business Development Center, housed in same building
- Provides a professional environment, knowledgeable assistance and advice, shared resources, and low overhead

Additional Information: The Tyler Area Business Incubator (TABI) is a creative consortium which includes the Tyler Junior College (TJC), City of Tyler, and Tyler Economic Development Council; all united to make Tyler a center for biotechnology, medical and surgical technology, and other high tech innovation. TABI encourages the development of technology-based products and services which broaden the economic base of the area served by the college. Thirteen to sixteen client businesses operate at the incubator throughout the year.

UnLtd USA

Location: Austin

Founded: 2014

Website: www.unltdusa.org

Specialization: Socially Conscious Entrepreneurship

Services & Facilities:

- Twice annually, UnLtd USA selects startups then offers them seed funding for critical startup costs; if successful, the startups pay forward that funding three years later to fund future UnLtd USA startups
- A skilled team and group of mentors provide customized coaching and training for a full year
- UnLtd USA's mentors serve on participating startups' Advisory Boards for a full year
- Provides access to the community's industry experts, potential partners, funders, and talent

Additional Information: UnLtd USA is a non-profit group operating an incubator program for Austin-based socially conscious entrepreneurs working to solve pressing social, environmental, or civic challenges. The non profit is housed in an East Austin coworking space. UnLtd USA is modeled on UnLtd, a UK registered charity which launched incubator services for social entrepreneurs in 2003 and, to date, has supported over 20,000 social entrepreneurs in the UK. UnLtd USA's inaugural 2014 class had six startups.

The UTSA New Venture Incubator (NVI)

Location: San Antonio

Founded: 2010

Website: <http://research.utsa.edu/commercialization/nvi.php>

Specialization: High Tech – Multiple Industries

Services & Facilities:

- Industry Partnership Program with UTSA researchers, core facilities, specialized equipment, and two wet labs
- Access to UTSA IP and joint commercialization efforts
- Strategic business plans from UTSA Management of Technology and MBA students
- Provides office space with business services, a conference room, library access, business consulting, and advice about/access to private and government funding resources

Additional Information: The UTSA New Venture Incubator (NVI), located at UTSA's Center for Innovation and Technology Entrepreneurship (CITE), is focused on supporting the translation of research into products and services from target companies that are licensing/commercializing UTSA IP, collaborating with UTSA researchers on sponsored research programs, and UTSA student/faculty startups operating in San Antonio. Successful ventures graduate from the NVI into the broader technology-based regional business ecosystem.

The Venture Development Center (VDC) at UT Dallas (UTD)

Location: Richardson

Founded: 2011

Website: <http://utdallas.edu/vdc>

Specialization: High Tech – Multiple Industries
