

## Texas Advanced Nuclear Energy Office

### Request for Information

The **Texas Advanced Nuclear Energy Office** (TANEO) was established by [House Bill 14](#), 89<sup>th</sup> Texas Legislature, to provide strategic leadership for advanced nuclear energy in Texas.

TANEO's mission is to support the development and deployment of advanced nuclear reactors and fuel cycle facilities, increase the manufacturing capacity, and develop the workforce required for the advanced nuclear energy industry in Texas. Additionally, TANEO serves as a permitting coordinator, facilitating a streamlined state-level permitting process for prospective advanced nuclear energy projects in Texas.

As TANEO begins its work, we are publishing a Request for Information (RFI) from the public and interested stakeholders in the areas of TANEO's advanced nuclear energy strategic plan development, permitting feedback, regulatory study, and grant application review.

To respond to this RFI, submit the completed RFI and attachments, if applicable, to [taneo@gov.texas.gov](mailto:taneo@gov.texas.gov) with the subject line "Request for Information Form\_*LAST NAME*".

**Name:**

**Title (if applicable):**

**Organization (if applicable):**

**Email:**

#### **TANEO Strategic Plan**

1. What key policy issues or areas of focus should TANEO include in its comprehensive strategic plan and why? (500 words)
2. TANEO may create ad hoc advisory committees to inform its strategic plan. If interested in participating on a TANEO advisory committee, please describe which policy issues or areas of focus you would be interested in contributing to, i.e. workforce development, public outreach, fuel cycle advisory committees: (100 words)

## Texas Advanced Nuclear Energy Office

### **Permitting Feedback**

3. If you have experience obtaining a permit or license at the state or local level for power production or non-power production facilities (i.e. supply chain or manufacturing), please complete and attach "Attachment A" in response to this RFI.
4. How could Taneo best provide guidance, tools, or services to project developers through its Nuclear Permitting Coordinator function? (500 words)

### **Regulatory Study**

5. HB14 directs Taneo and the Public Utility Commission to study to identify necessary state regulatory functions related to nuclear energy generation facilities in Texas. What questions and topics should that study address? (500 words)

### **Grant Application Review Panel**

6. Taneo may solicit qualified individuals to participate on a peer review panel to evaluate and review technical aspects of submitted applications. If you would like to be considered to participate on an application review panel, please attach your CV in response to this RFI. Interested individuals will be contacted separately with additional information about the review process.
