

As problems turn up in not just school grounds but also the community, you wonder who is there to protect and save the day.

Well, Student Crime Stoppers of Amarillo is there for you! We are a non profit organization made up of a board. This student board decides where and when events are held, and also the payouts for tips we get in! This program may seem daunting at first but it's really super fun and easy.

A most noticeable event we set up is kids ID cards, mainly towards anyone under 18! We love doing this for our community because many parents want to make sure if anything happens to their little sunshine we can be there to help. The ID consists of the child's name, address, phone number, birthdate, gender, height, weight, eye color, and finally their picture!

We also help around in school! Setting up fundraisers around the school to raise money for families in need or even just for the school. We encourage each and every student if you see something, say something with posters and a lot of the time through announcements.

We love to help out our community and school grounds through any means possible with even the simplest of fundraising opportunities available. I personally think we can be a good role model to the younger generations as well.
