

Texas Military Preparedness Commission

Office of the Governor

Naval Air Station Joint Reserve Base

Fort Worth 2020

MISSION

Naval Air Station Joint Reserve Base Fort Worth (NAS JRB FW) is the first joint reserve base in the United States. NAS JRB FW is responsible for training and equipping aviation units and ground support personnel for deployment in preparation for world-wide mobilization. NAS JRB FW seeks to provide joint training capabilities and resources to enable war fighter readiness while sustaining personnel and families' needs and future compatibility.

TENANT COMMANDS*

Navy - Information Command Reserve (CNIFR); Information Dominance Corps Reserve Command; Region Southeast Reserve Component Command Fort Worth; Operational Support Center (NOSC); Fleet Logistics Support Wing (CFLSW); Fleet Logistic Support Squadron 59 (VR-59).

Air Force - 10th Air Force Headquarters; 301st Fighter Wing (Reserve); 136th Airlift Wing (Texas Air National Guard); 457th Air Force Fighter Squadron.

Army - Baker Company 90th Aviation Support Battalion; Alpha Company, 6th Battalion, 52nd Aviation Regiment

Marine Corps - Marine Aircraft Group 41 (MAG-41); Fighter Attack Squadron 112 (VMFA-112); 14th Marine Regiment; and the 8th Marine District.

**Not a complete list.*

PARTNERSHIPS

This is a historical asset to the local community and has excellent community support. Annual community engagements include base tours, speaking engagements at local schools, Air Power Demonstrations, and youth drug education programs. The Air Power Council is extremely supportive of the installation, military families, and veterans. NAS JRB FW has completed a Joint Land Use Study (JLUS) and, as a result, formed the Regional Coordination Committee (RCC) to enhance and maintain intergovernmental cooperation. The RCC at NAS JRB FW is a nationally recognized model for intergovernmental cooperation.

Variable	Total Impact
Direct Employment	6,616
Output to the Texas Economy (in billions)	\$3.8
GDP (in billions)	\$2.3
Disposable Personal Income (in billions)	\$1.3

OUTLOOK

NAS JRB FW is home to a variety of missions. Some current missions have begun bringing headquarters to Fort Worth due geographic location and excellent recruitment potential. With the presence of nearby Military Operation Areas (MOAs), Military Training Routes (MTRs), and Lockheed Martin, NAS JRB FW is an excellent site for additional squadrons and training centers. Fort Worth is host to C-40s, F-18s, KC-130Js, C-12s, UC-35, F-16s, and C-130s among others. Lockheed Martin is currently producing the new F-35s.
